RESOLUTION NO. 22621

RECORDING TO PUBLIC HEALTH; SUPPORTING INITIATIVES AND OPPORTUNITIES TO ENGAGE IN THE WORLD HEALTH ORGANIZATION (WHO) AGE-FRIENDLY CITIES AND COMMUNITIES NETWORK OF MUNICIPALITIES; AND DECLARING AN EMERGENCY.

WHEREAS, the global population of people aged 60 and over is expected to grow from 600 million in 2000 to almost 2 billion by 2050; and

WHEREAS, in the United States, the population of people aged 65 and over is expected to grow from 35 million in 2000 to 88.5 million by 2050, taking the total share of the 65 and over population from 12 percent to 20 percent of the total population; and

WHEREAS, research shows that older Americans overwhelmingly want to remain in their homes and communities as they age; and

WHEREAS, access to quality health care and long-term services and support is essential for individuals to live in their homes and communities as they age; and

WHEREAS, 21 percent of adults age 65 and older do not drive, and more than half of these non-drivers do not leave home on a given day, in part because they lack transportation options; and
WHEREAS, reduced mobility for older non-drivers leads to 15 percent fewer trips to the doctor, 59 percent fewer shopping trips and visits to restaurants, and 65 percent fewer trips for social, family and religious activities; and

WHEREAS, the World Health Organization (WHO) has developed a Global Network of Age-Friendly Cities and Communities to encourage and promote public policies to increase the number of cities and communities that support healthy aging and thereby improve the health, well-being, satisfaction, and quality of life for older Americans; and

WHEREAS, active aging is a lifelong process, whereby an age-friendly community is not just “elder-friendly,” but also intended to be friendly for all ages; and

WHEREAS, the WHO has noted that “[m]aking cities and communities age-friendly is one of the most effective policy approaches for responding to demographic aging;” and

WHEREAS, the WHO has developed eight domains of community life that influence the health and quality of life of older people:

1. Outdoor Spaces and Buildings—accessibility to and availability of clean, safe community centers, parks, and other recreational facilities;

2. Transportation—safe and affordable modes of private and public transportation, “Complete Streets” types of initiatives, and hospitable built environments;

3. Housing—wide range of housing options for older residents, aging in place and other home modification programs, and housing that is accessible to transportation and community and health services;
4. Social Participation—access to leisure and cultural activities; and opportunities for older residents to participate in social and civic engagement with their peers and younger people;

5. Respect and Social Inclusion—programs to support and promote ethnic and cultural diversity, programs to encourage multigenerational interaction and dialogue, and programs to combat loneliness and isolation among older residents;

6. Civic Participation and Employment—promotion of paid work and volunteer opportunities for older residents; and opportunities for older residents to engage in formulation of policies relevant to their lives;

7. Communication and Information—promotion of and access to the use of technology to keep older residents connected to their community and friends and family, both near and far; and

8. Community Support and Health Services—access to homecare services, clinics, and programs to promote active ageing (physical exercise and healthy habits); and

WHEREAS, the WHO recognizes that towns, cities and communities have different needs, resources, and varying capacities to engage their resources to take action to facilitate active aging;

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND COUNCIL OF THE CITY OF TUCSON, ARIZONA, AS FOLLOWS:

SECTION 1. That the City of Tucson Mayor and Council will work to support initiatives and opportunities to engage in the WHO Age-Friendly Cities and Communities Network of municipalities, and to encourage and promote public policies supporting healthy aging.
SECTION 2. The various City officers and employees are authorized and directed to perform all acts desirable to give effect to this Resolution.

SECTION 3. WHEREAS, it is necessary for the preservation of the peace, health and safety of the City of Tucson that this Resolution become immediately effective, an emergency is hereby declared to exist and this Resolution shall be effective immediately upon its passage and adoption.
