Town Manager
Belgrade, ME 04917

The town of Belgrade, ME is an aging community, in an aging state. Belgrade is committed to supporting our aging citizens and promoting policies that supports those residents that are aging and need services not presently available.

Belgrade has recently formed an ad-hoc committee to move towards meeting the needs of aging citizens. This committee is made up of town officials, policy makers, medical managers, and non-profit providers. The committee is active and has developed an initial plan to help seniors meet their needs.

It is the intent of this committee to:

- Include older citizens on the committee.
- Keep the Select Board involved and ensure that board advocates for those planned steps to make Belgrade Age Friendly.
- Follow the plan of action presented in our application.
- Commit to measuring activities, reviewing the plan outcomes and reporting on them publicly.

Belgrade looks forward to working with AARP to help those citizens that are in need of services not presently available.

Sincerely,

Dennis L Keschl
