Dear Mr. Bridges:

On behalf of the City of Owensboro, we are excited about the opportunity to join with AARP Kentucky and the World Health Organization (WHO) to become an Age-Friendly Community. Along with the other selected communities of the nation, Owensboro is committed to promoting policies to make American cities friendly to citizens of all ages.

To address our changing demographics, our community will convene a Task Force comprised of a diverse group, including executives from non-profit providers, funding agencies, policy makers and academia. Our goal is to ensure our neighbors of all ages have the resources to be healthy, independent and integrated into community life.

As a participant in the national network of communities, it is the intent of the city of Owensboro to:

- Include the active engagement of older adults in the Task Force;
- Secure a council resolution to work toward becoming age-friendly;
- Establish a Plan of Action that responds to the needs identified by citizens, including older adults in the community;
- Commit to measuring activities, reviewing action plan outcomes and reporting on them publicly.

We look forward to working with AARP Kentucky staff and volunteers to ensure our community has the appropriate infrastructure in place so we can all age with dignity.

Sincerely,

Thomas H. Watson
