Working Toward an Age Friendly Community: An AARP Livable Communities Survey of Greater Des Moines/Polk County, Iowa Residents Ages 50+

Key Findings

- ❖ **Des Moines/Polk County residents age 50+ have lived in this area for a long time and are likely to remain there as they get older.**
 - ✓ Des Moines/Polk County residents age 50+ have lived in this area for an average of 41 years.
 - ✓ 40% say it is extremely or very important to stay in their neighborhood and 64% say it is extremely or very important for them to stay in their home as they age.
 - ✓ 69% say they are not too or not at all likely to move outside their community in the next 10 years.

- ❖ **Des Moines/Polk County residents age 50+ were asked to give their opinions of their neighborhoods based on housing, transportation, outdoor spaces, public services, older adult resources and services and social activities.**
 - ✓ Housing: Four in five (81%) agree people in their neighborhood take care of their homes and property while over half agree that home repair contractors do quality work (56%) and are trustworthy (54%); there are many homes for sale (55%); and home prices are affordable (51%).
 - ✓ Transportation: 88% agree their neighborhood has easy to read traffic signs, 78% agree there are well-maintained streets, and about three in five agree there is sufficient public parking (65%) and speed limits are enforced (62%).
 - ✓ Outdoor spaces: About three in four agree there are enough public parks (79%) and there are well-maintained parks (79%) and public buildings (76%).
 - ✓ Public/Private Services: 86% say their neighborhood has elementary and secondary schools while slightly fewer say there is a fire department (80%) and a public library (76%).
 - ✓ Older adult resources and services: 71% say their neighborhood has seasonal lawn or snow removal while about three in five say there are nursing homes (58%) and retirement communities (58%).
 - ✓ Social activities: 88% say there are places of worship in their neighborhood while about four in five say there are pharmacies (83%) and grocery stores (80%). Additionally, about three in five agree there are many events open to all ages (65%) and entertainment venues are conveniently located (60%).

- ❖ **Des Moines/Polk County residents age 50+ say local TV affiliates are the most helpful source for news and information in their neighborhood followed by public television, newspapers and radio.**
 - ✓ 74% find local television affiliates to be an extremely or very helpful source of information in their neighborhood while about half say they find public television (57%), daily newspapers (57%) and local radio stations (54%) helpful.

- ❖ **Many Des Moines/Polk County residents age 50+ are currently working and plan to keep on working as long as possible.**
 - ✓ 45% are employed either full or part-time, and 45% of these survey respondents are extremely or very likely to put off full-time retirement for as long as possible.
 - ✓ 80% of all survey respondents agree that the state of Iowa needs to do more to ensure that people age 50 and older can continue to work for as long as they want or need to regardless of their age.

The AARP Iowa State Office commissioned a survey to explore the views of Des Moines/Polk County residents age 50+ on characteristics of an age friendly neighborhood. These results are based on a mail survey fielded in September 2012 of 3,500 residents age 50+ in Des Moines/Polk County, Iowa. A total of 724 surveys were returned. The margin of error for these residents is ± 3.7 percent. An annotated survey of the responses begins on page 22 followed by a description of the methodology.

Detailed Findings

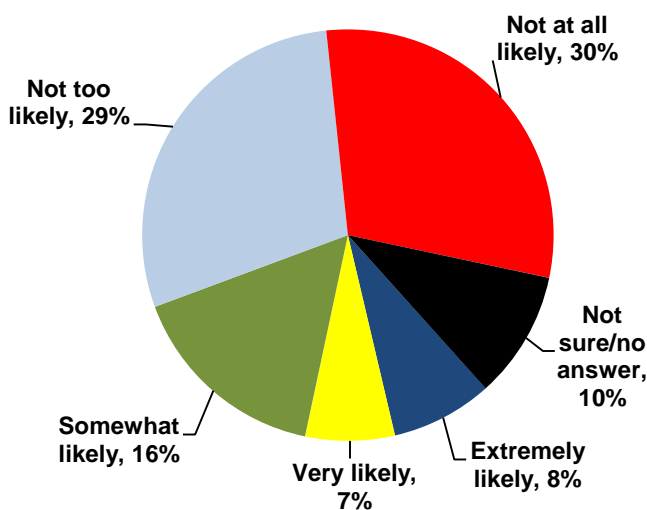

Neighborhood Tenure

Des Moines/Polk County residents age 50+ are long-time residents of this area and are likely to remain there as they get older.

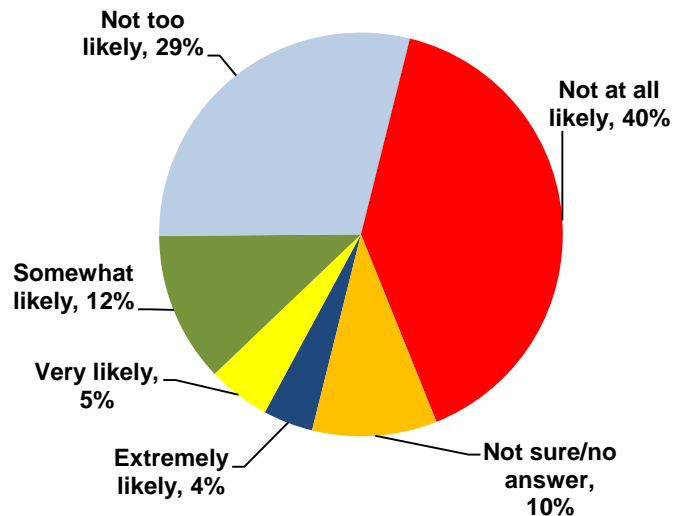

Des Moines/Polk County residents age 50+ have lived in their current neighborhood for an average of 23 years; and they have lived in the Des Moines/Polk County area for an average of 41 years. Furthermore, over four in five (84%) are year round residents of Des Moines/Polk County while only six percent are either seasonal residents or temporary residents.

Most Des Moines/Polk County residents age 50+ are unlikely to move into a different home within the area or move outside the area in the next 10 years. About three in five (59%) say they are not too or not at all likely to move to a different home within Des Moines/Polk County, and another one in six says they are only somewhat likely to do this. Des Moines/Polk County residents are even less likely to move to a different home outside of the area with seven in ten (69%) saying they are not too or not at all likely to move to a different home outside of Des Moines/Polk County, and another one in eight saying they are only somewhat likely to do so.

Likelihood of Moving to a Different Home in Des Moines/Polk County in the Next 10 Years (N=724)

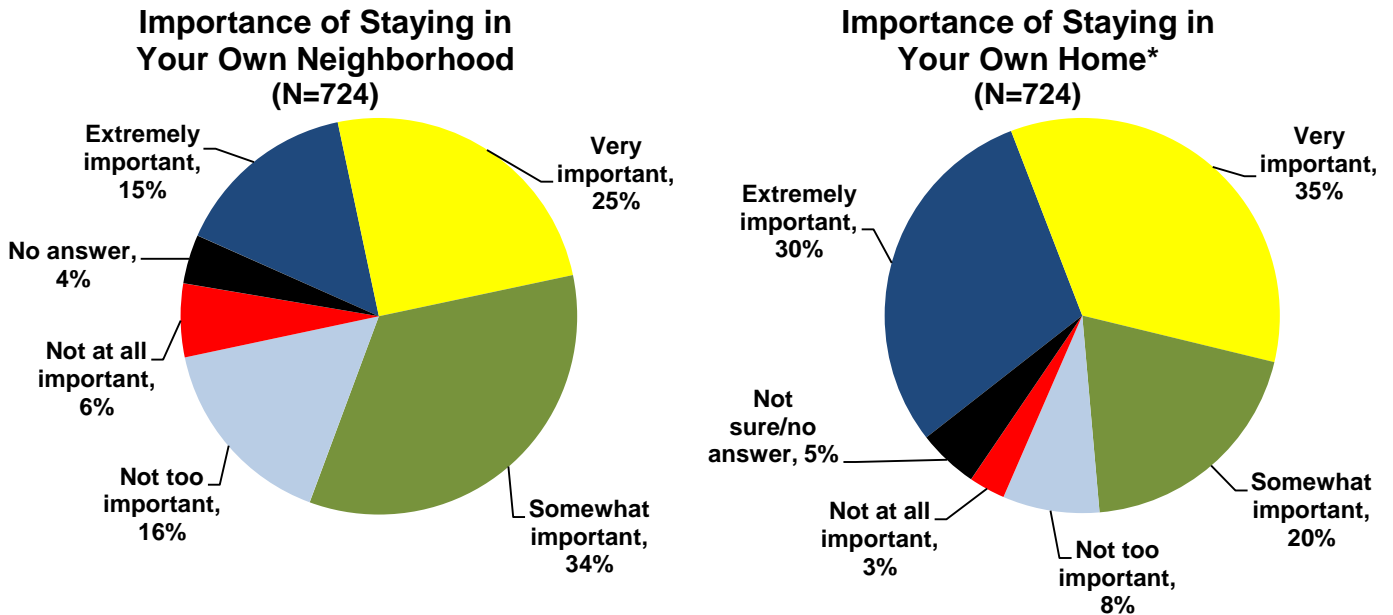

Likelihood of Moving to a Different Home outside of Des Moines/Polk County in the Next 10 Years (N=724)

Des Moines/Polk County residents age 50+ say it is important for them to remain in their home and neighborhood; and they believe that their neighborhood is a good place for older people to live.

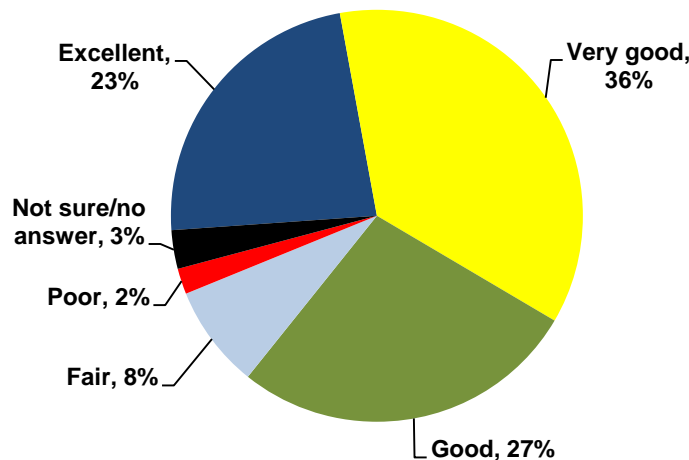

Two in five (40%) say it is extremely or very important to stay in their neighborhood as they age and another third says this is somewhat important. Many more respondents, about two-thirds (64%), say it is extremely or very important to stay in their own home as they age and another one in five says this is somewhat important.

*Percentages may not add up to 100 due to rounding.

Nearly nine in ten (87%) rate their neighborhood as an excellent, very good or good place for older people to live as they age while only one in ten (10%) rate their neighborhood as a fair or poor place for people to live as they age.

Neighborhood Rating as a Place for Older People to Live* (N=724)

*Percentages may not add up to 100 due to rounding.

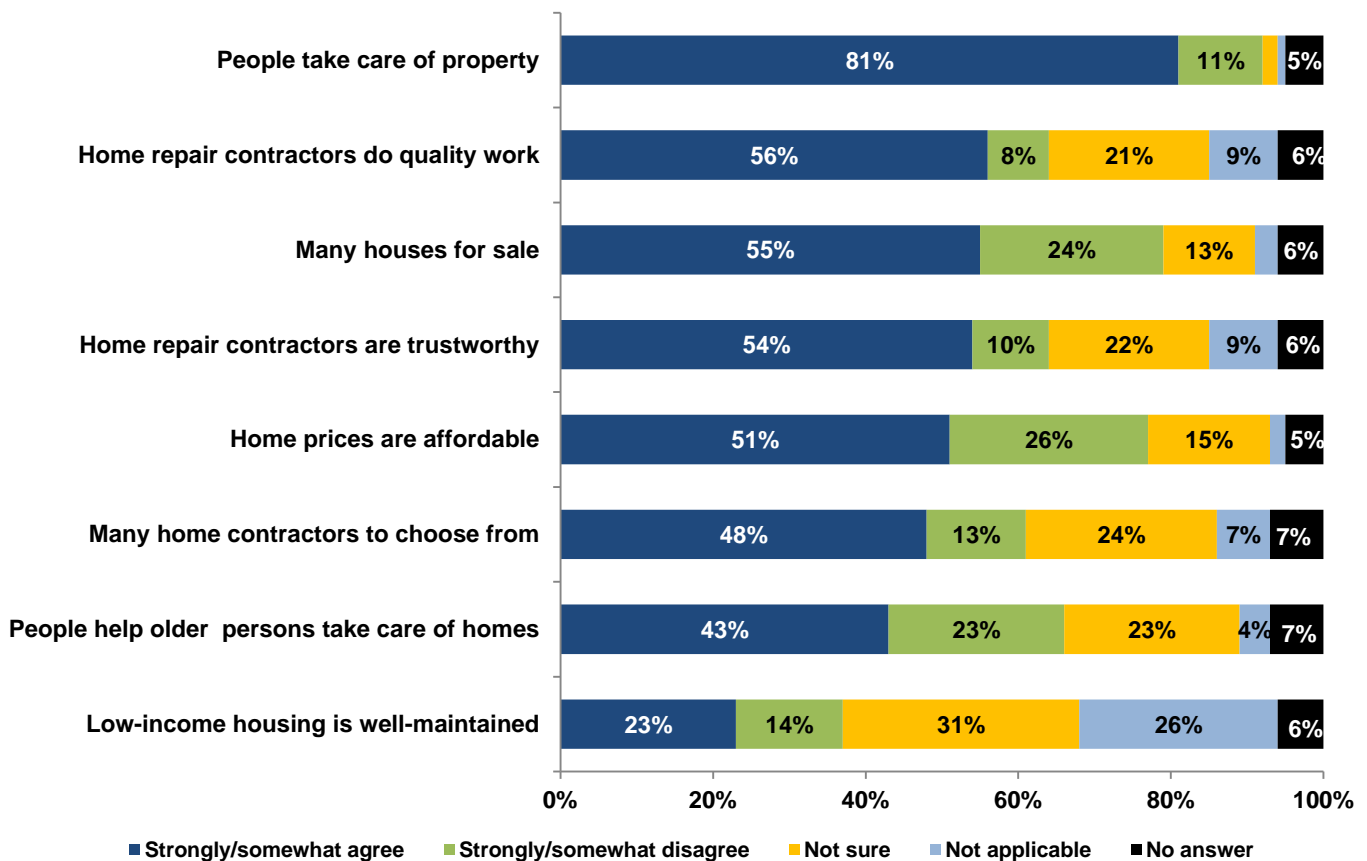

Neighborhood Characteristics and Features

Housing

Des Moines/Polk County residents age 50+ agree that people in their neighborhood take good care of their own property; however, fewer agree there are quality trustworthy home contractors to choose from and there are many affordable houses for sale.

When thinking about housing in their neighborhood, four in five Des Moines/Polk County residents age 50+ believe residents take good care of their homes and property. About half says home repair contractors do quality work, are trustworthy and there are many to choose from. About half also believe there are many homes for sale at affordable prices. Just over two in five say neighborhood residents help older residents take care of their home's property and about a quarter believes low-income housing is well-maintained. It is worth noting that almost a third says they are unsure about the maintenance of low-income housing in their neighborhood.

Level of Agreement with Neighborhood Housing Characteristics*
(N=724)

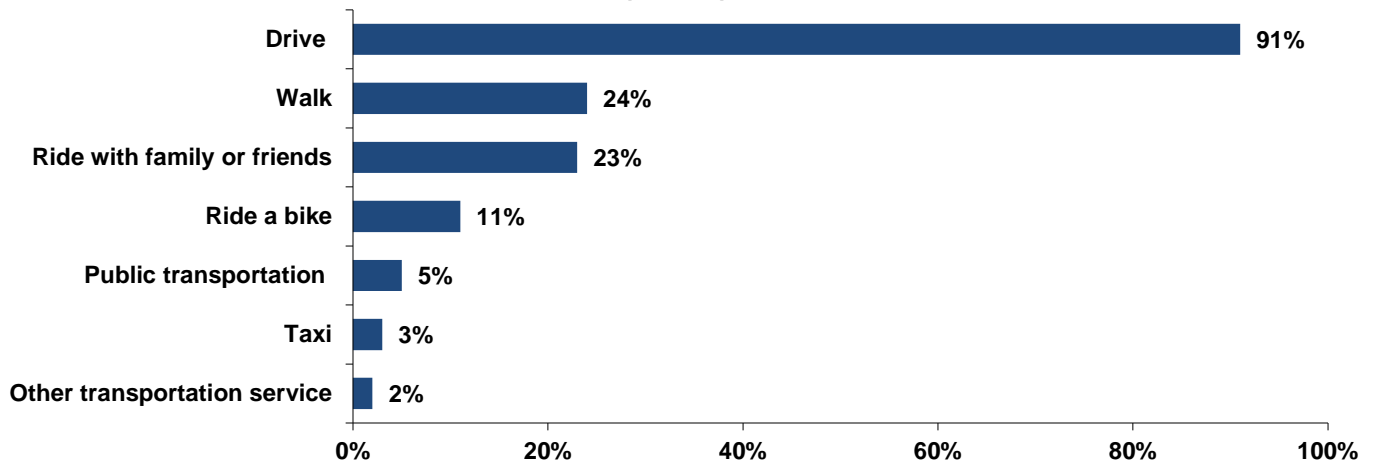

*Percentages may not add up to 100 due to rounding. Percentages less than 4 percent are not shown.

Transportation

Des Moines/Polk County residents age 50+ drive themselves to get to where they want to go and most agree there are easy to read traffic signs and well-maintained streets in their neighborhood.

Just over nine in ten Des Moines/Polk County residents age 50+ drive themselves in order to do things like shopping, visiting the doctor, running errands or getting to other places in their communities. About a quarter walks or rides with family or friends. Approximately one in ten rides a bike and far fewer uses public transportation, takes a taxi or uses some other transportation service.

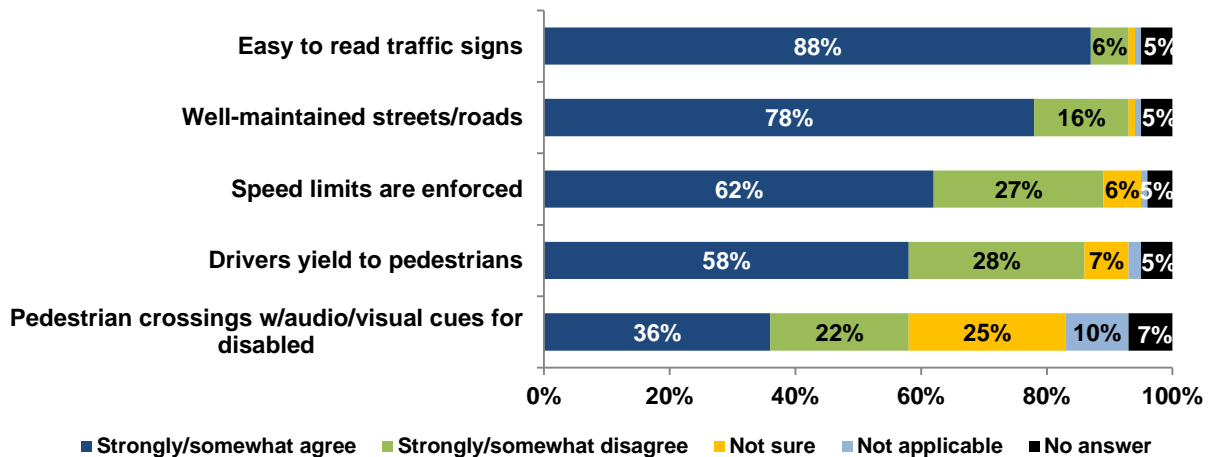

Transportation Modes of Des Moines/Polk County Residents Age 50+*
(N=724)

*Graph shows respondents who checked "yes" under each mode of transportation.

When thinking about the streets and roads in their neighborhood, almost nine in ten strongly or somewhat agree that there neighborhood has traffic signs that are easy to read. Over three in four agree the streets and roads in their neighborhood are well-maintained. About three in five agree that neighborhood speed limits are enforced and drivers yield to pedestrians. Over a third strongly or somewhat agrees pedestrian crossings in their neighborhood have audio/visual cues for the hearing and visually impaired.

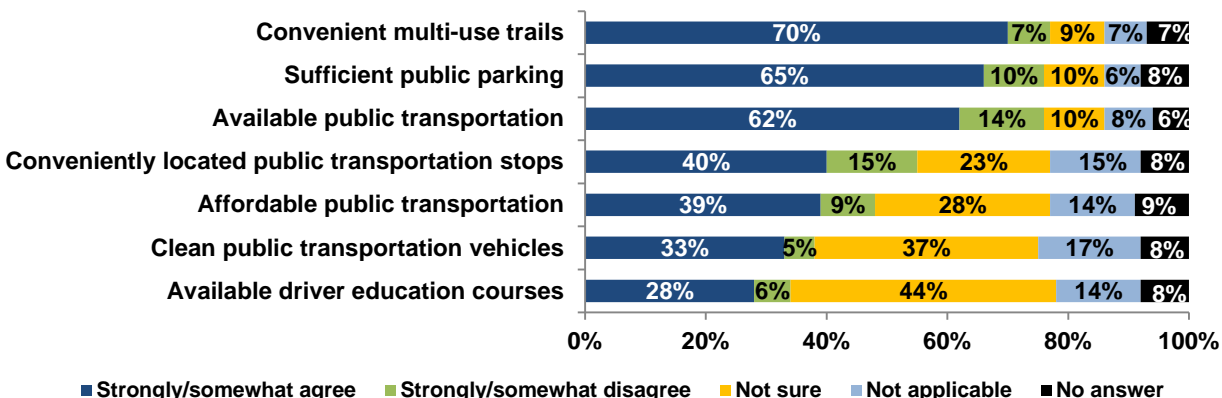

Level of Agreement with Neighborhood Streets and Roads Characteristics*
(N=724)

*Percentages may not add up to 100 due to rounding. Percentages less than 4 percent are not shown.

When thinking about transportation options in their neighborhood, seven in ten strongly or somewhat agree convenient multi-use trails for biking, running and walking are present in their neighborhood. Nearly two-thirds agree that their neighborhood has sufficient public parking and just over three in five agree that public transportation is available. About two in five strongly or somewhat agree there are conveniently located public transportation stops and affordable public transportation is available. Approximately three in ten agree that public transportation vehicles are clean and there are driver education and refresher courses available in their neighborhood.

Level of Agreement with Neighborhood Transportation Characteristics* (N=724)

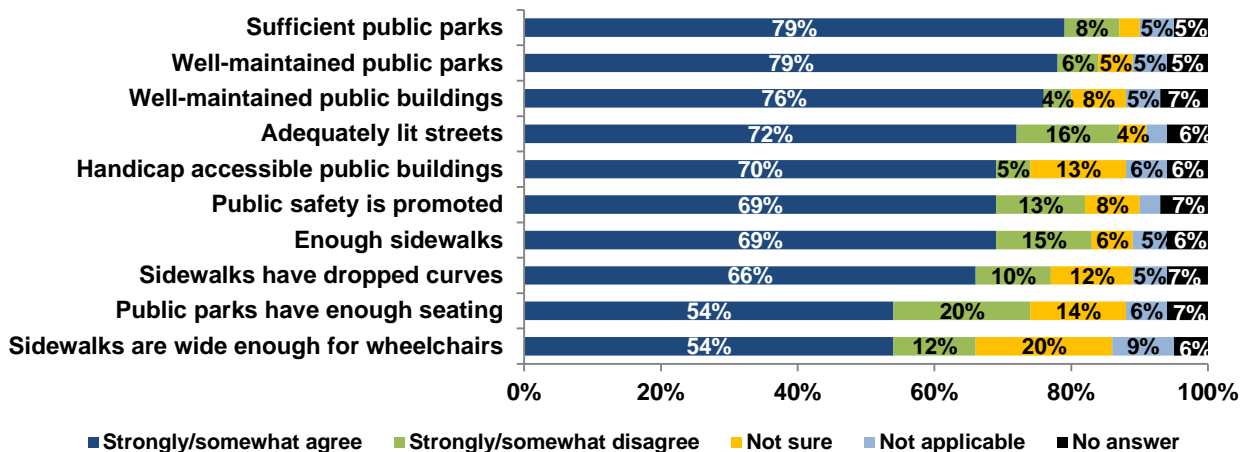

*Percentages may not add up to 100 due to rounding.

Outdoor Spaces

Des Moines/Polk County residents age 50+ agree their neighborhood has good outdoor spaces including well-maintained public parks and buildings and adequately lit streets.

Nearly four in five Des Moines/Polk County residents age 50+ strongly or somewhat agree their neighborhood has enough well-maintained public parks as well as well-maintained public buildings. About seven in ten agree there are adequately lit streets, handicap accessible buildings, public safety is actively promoted and there are enough sidewalks. About two in three agree sidewalks in their neighborhood have dropped curves to the road level and just over half believe there are public parks with enough seating and sidewalks that are wide enough for wheelchairs.

Level of Agreement with Neighborhood Outdoor Space Characteristics* (N=724)

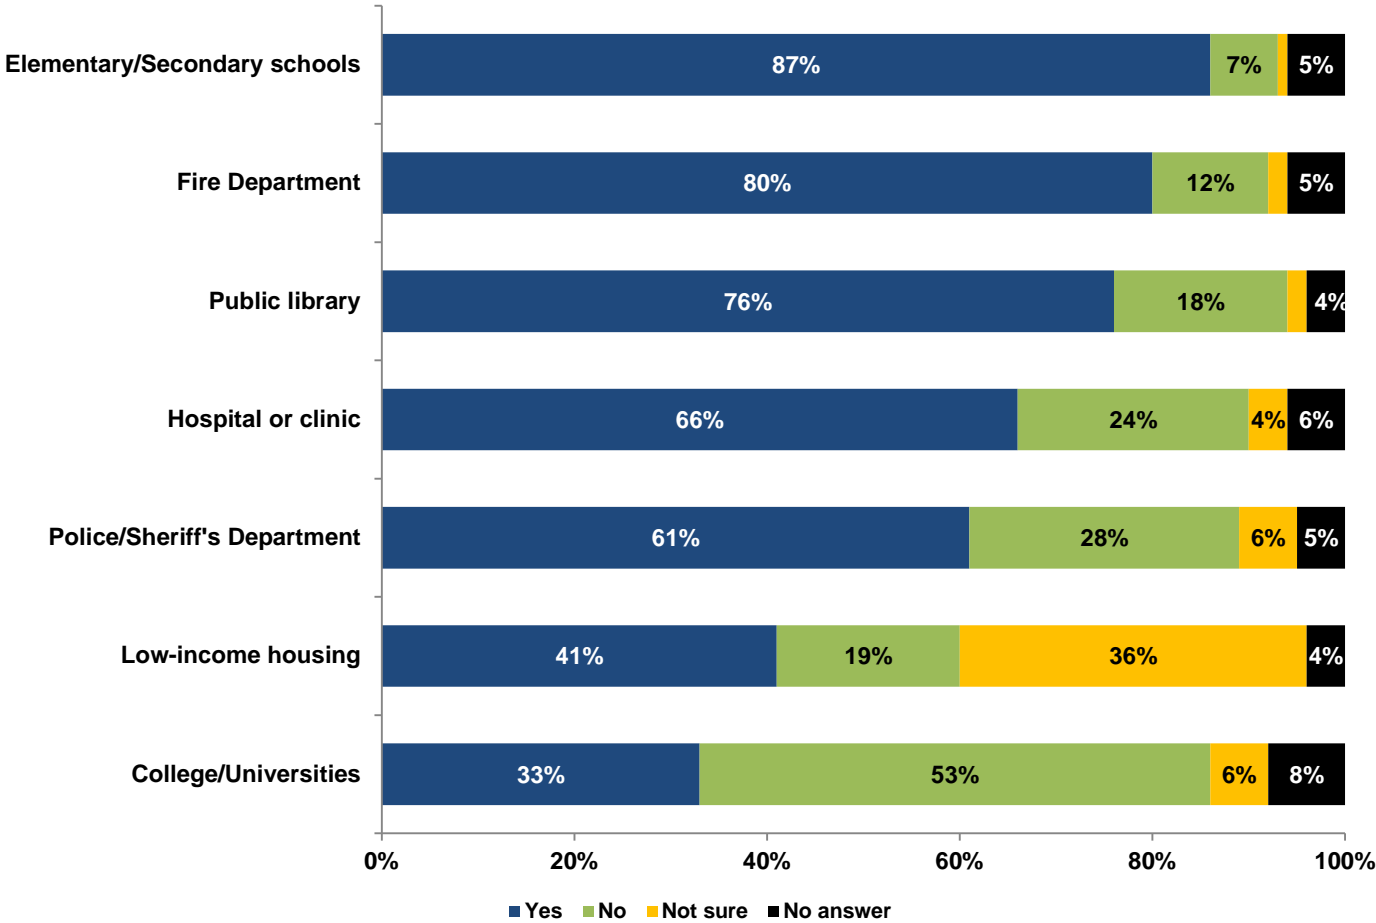

*Percentages may not add up to 100 due to rounding. Percentages less than 4 percent are not shown.

Public/Private Services

Most Des Moines/Polk County residents age 50+ say their neighborhood has elementary and secondary schools, fire departments and libraries while far fewer say they have colleges or universities.

Nearly nine in ten Des Moines/Polk County residents age 50+ say there are elementary and secondary schools in their neighborhood. Four in five say there is a fire department in their neighborhood while three in four say there is a public library. Two-thirds say a hospital or clinic is present and three in five say there is a police department in their neighborhood. While two in five say that there are low-income housing options in their neighborhood almost as many say they are unsure if these options exist. A third says that there are higher education institutions like colleges and universities in their neighborhood while more than half say these educational institutions are not present in their neighborhood.

Presence of Neighborhood Public/Private Services*
(N=724)

*Percentages may not add up to 100 due to rounding. Percentages less than 4 percent are not shown.

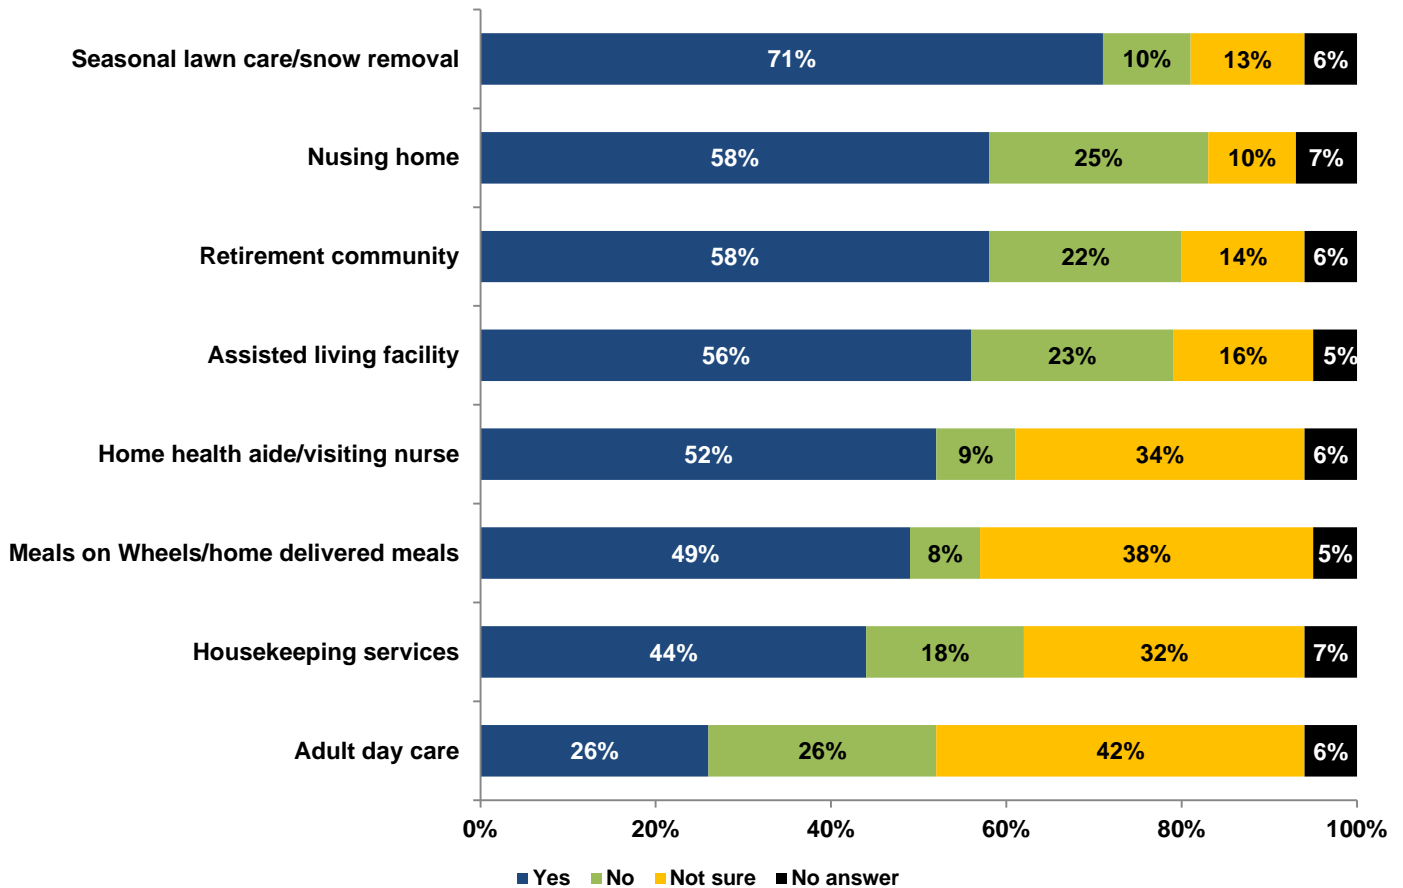

Older Adult Resources and Services

Des Moines/Polk County residents age 50+ agree their neighborhood has services like seasonal lawn care and snow removal, retirement communities and long-term care facilities and services.

While seven in ten say seasonal lawn care or snow removal services exist in their neighborhood nearly three in five say nursing homes, assisted living facilities and retirement communities exist in their neighborhood. About half says there are home health aides and home delivered meal services like meals on wheels in their neighborhood. About two in five say there are housekeeping services available in their neighborhood and a quarter says there are adult day care options present.

It is important to note that there is a fair amount (between three in ten and four in ten) of respondents who are not sure if housekeeping services, home health aides, home delivered meals or adult day care exist in their neighborhood.

**Presence of Neighborhood Older Adult Resources and Services*
(N=724)**

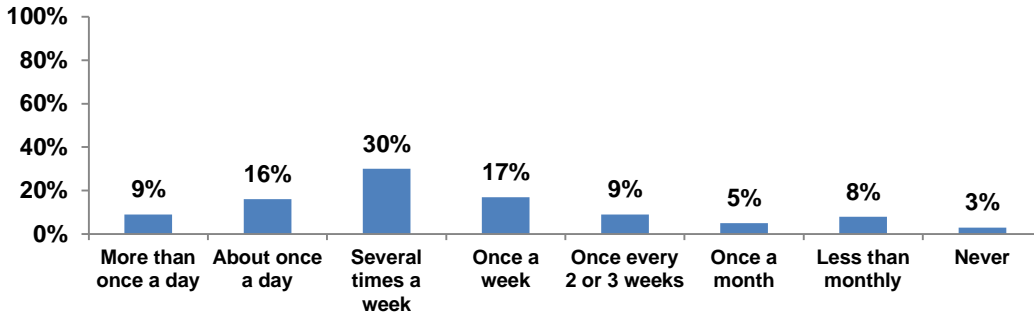

*Percentages may not add up to 100 due to rounding.

Social Activities

Des Moines/Polk County residents age 50+ regularly interact with their friends and neighbors.

More than half (55%) says they interact with friends and neighbors in their neighborhood several times a week or more. One in six says they interact with others in their neighborhood once a week and about one in five (22%) interacts with people in their neighborhood less than weekly.

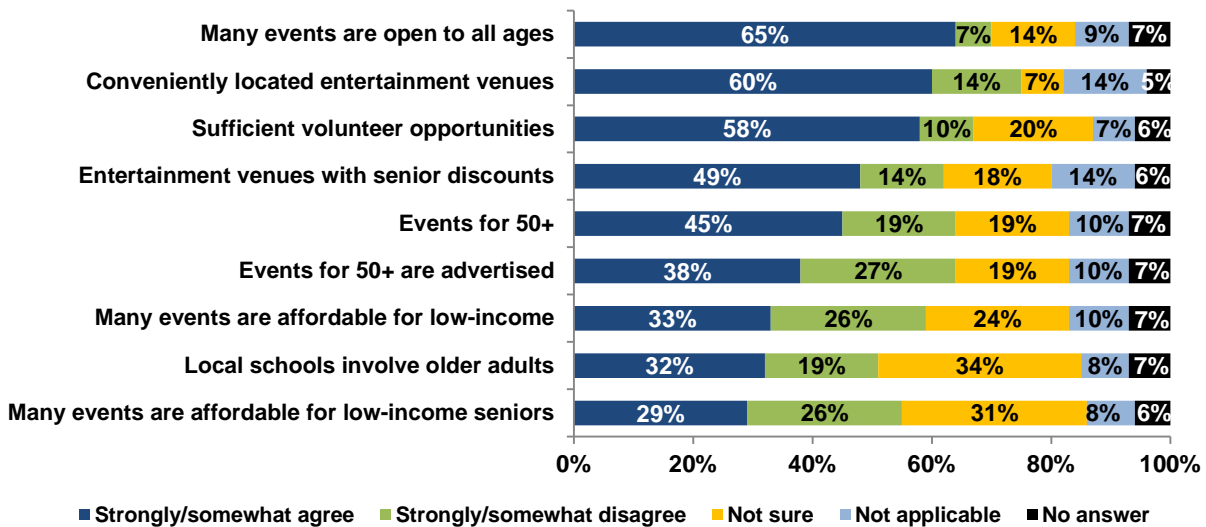

Frequency that Des Moines/Polk County Residents Age 50+ Interact with People in their Neighborhood (N=724)

Des Moines/Polk County residents age 50+ believe their neighborhood has some social events, activities, entertainment, restaurants and shopping.

Nearly two-thirds of Des Moines/Polk County residents age 50+ strongly or somewhat agree their neighborhood has many events that are open to all ages. About three five strongly or somewhat agree their neighborhood has venues for entertainment that are conveniently located and enough volunteer opportunities. About half agree there are entertainment venues that offer senior discounts and events for 50+ adults in their neighborhood; and nearly two in five agree events for 50+ adults are advertised. Fewer, about a third, agree their neighborhood has many events that are affordable for low-income adults as well as low-income seniors and local schools involve older adults in activities.

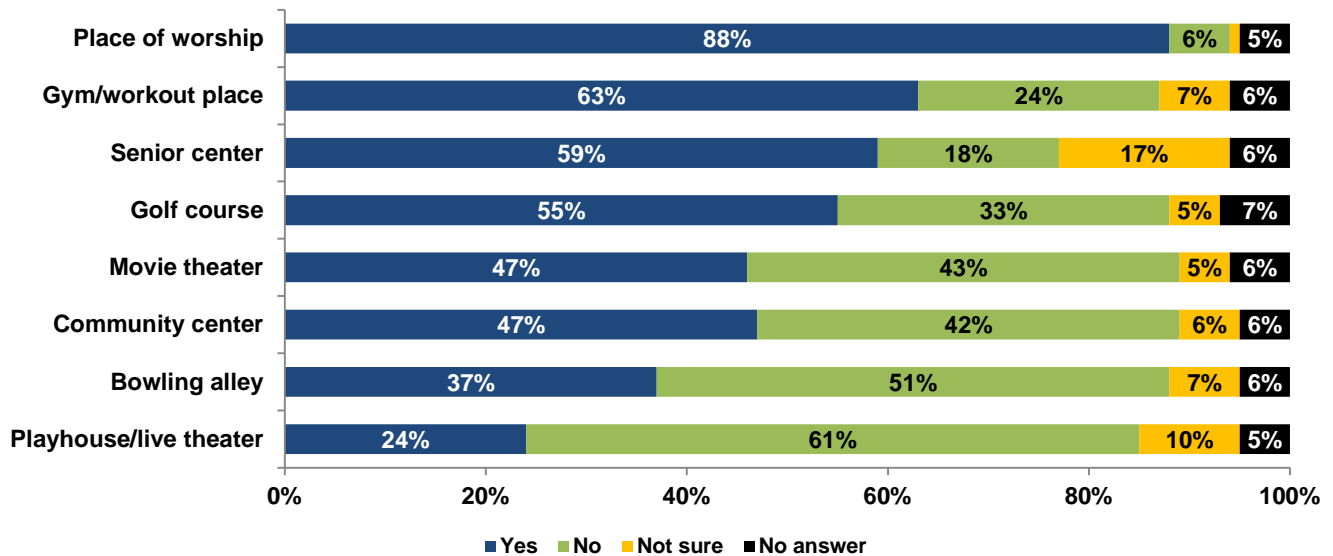

Level of Agreement with Neighborhood Social Characteristics* (N=724)

*Percentages may not add up to 100 due to rounding.

Almost nine in ten Des Moines/Polk County residents age 50+ say that places of worship such as churches or synagogues exist in their neighborhood. About three in five say that there are gyms and senior centers in their neighborhood. Other activities and services that about half say exist are golf courses, movie theaters and community centers. About a third or fewer say there are bowling alleys and playhouses or live theaters in their neighborhood.

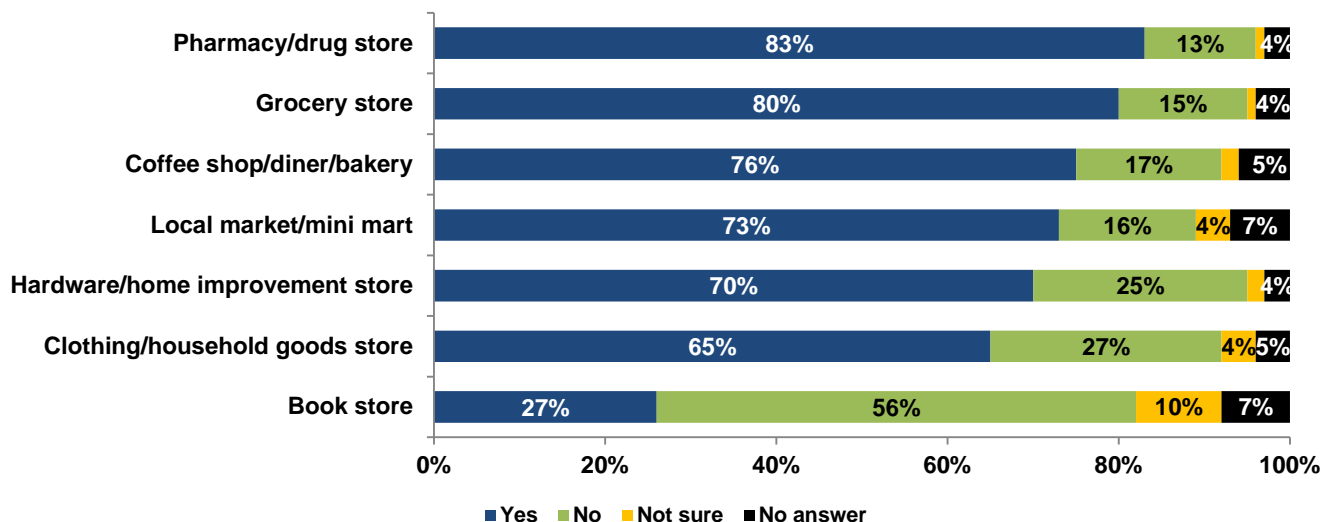

Presence of Neighborhood Activities and Entertainment* (N=724)

*Percentages may not add up to 100 due to rounding. Percentages less than 4 percent are not shown.

Most Des Moines/Polk County residents age 50+ are aware of the various restaurant and shopping options in their neighborhood. About four in five say that pharmacies and grocery stores are present in their neighborhoods while three in four say their neighborhood has coffee shops, diners or bakeries. About seven in ten say local markets and hardware or home improvement stores exist in their neighborhood and nearly two in three say there are stores to shop for clothing and household goods. Only about a quarter says there are book stores in their neighborhood.

Presence of Neighborhood Restaurants and Shopping* (N=724)

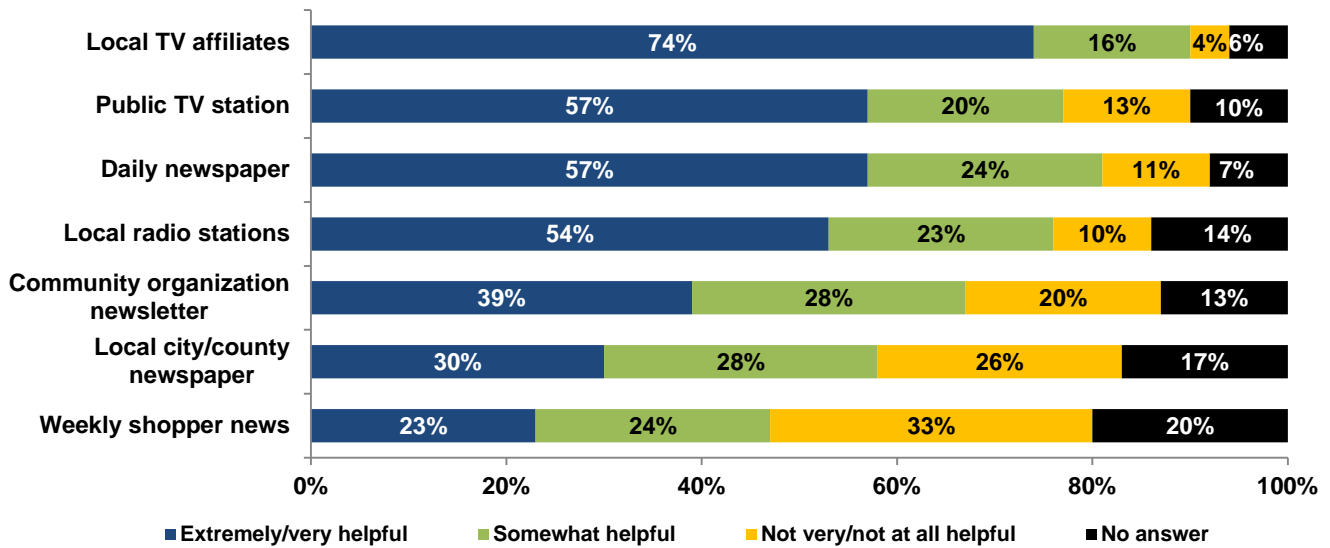

*Percentages may not add up to 100 due to rounding. Percentages less than 4 percent are not shown.

Neighborhood News and Information

Des Moines/Polk County residents age 50+ find local television affiliates to be the most helpful source for information and news in their neighborhood.

Nearly three-quarters say they find local TV affiliates to be an extremely or very helpful source of information for happenings in their neighborhood while almost three in five say they find public TV stations and daily newspapers to be extremely or very helpful. About half find local radio stations extremely or very helpful neighborhood information and news sources while about two in five find community newsletters extremely or very helpful. Fewer find local city or county newspapers or the weekly shopper news to be extremely or very helpful news sources.

Helpfulness of Neighborhood Information Sources*
(N=724)

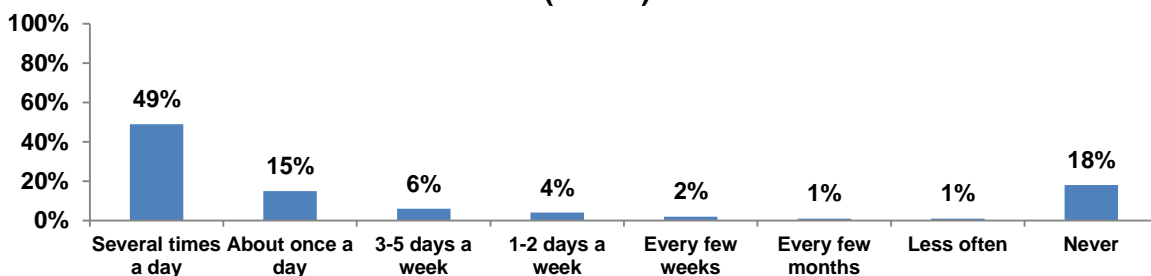

*Percentages may not add up to 100 due to rounding.

Des Moines/Polk County residents age 50+ and are active Internet users who mostly access the Internet for email, news and shopping.

Over seven in ten (73%) Des Moines/Polk County residents age 50+ say they own a computer with Internet access.

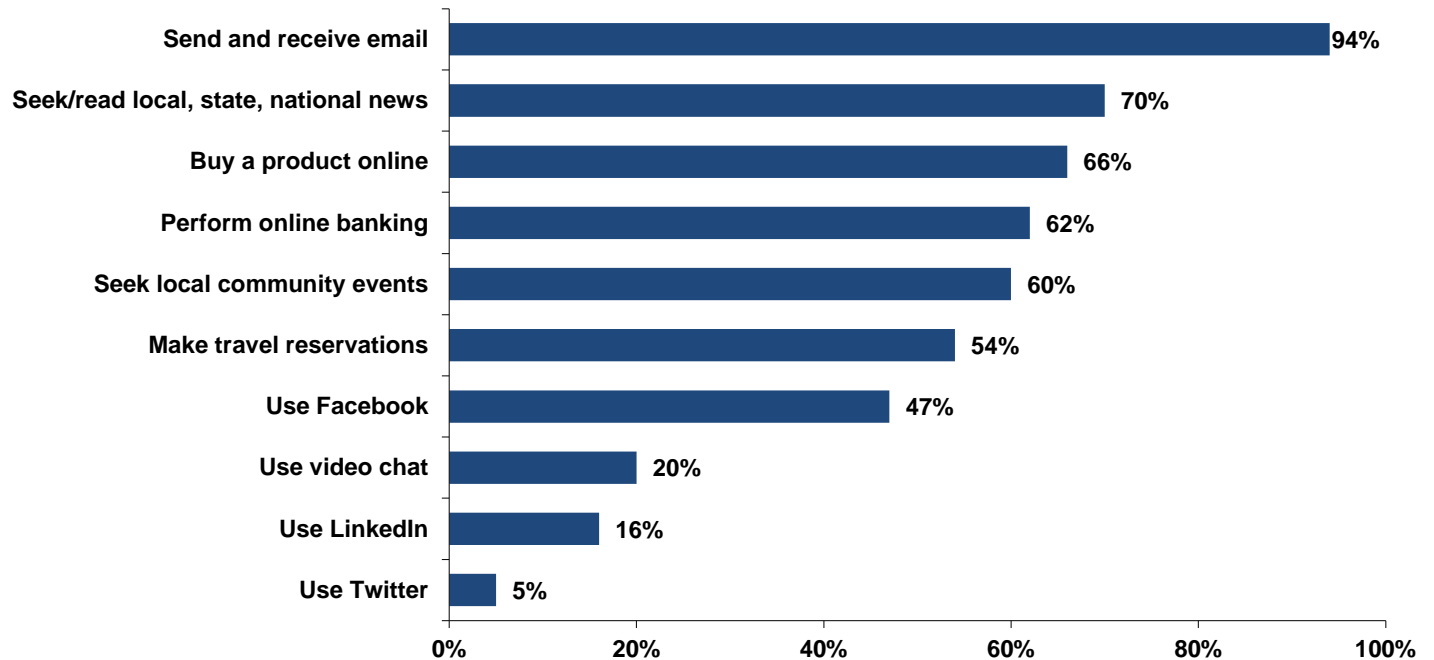

Just about half of Des Moines/Polk County residents age 50+ says they access the Internet several times a day and another 15 percent access it about once a day. Only one in eight (13%) says they access the Internet less than daily. It is important to note that almost one in five Des Moines/Polk County residents age 50+ say they never access the Internet.

Frequency that Des Moines/Polk County Residents Age 50+ Access the Internet
(N=724)

Nearly all Des Moines/Polk County residents age 50+ who access the Internet do so mostly to send and receive email. Seven in ten use the Internet to look up local, state or national news while about two-thirds use the Internet to purchase products. About three in five perform online banking or seek out information on local community events, entertainment or dining when they access the Internet. About half use the Internet for making travel arrangements or getting on Facebook while fewer use it for video chats, LinkedIn or Twitter.

Internet Activities of Des Moines/Polk County Residents Age 50+*
 (n=556, Respondents Who Access the Internet)

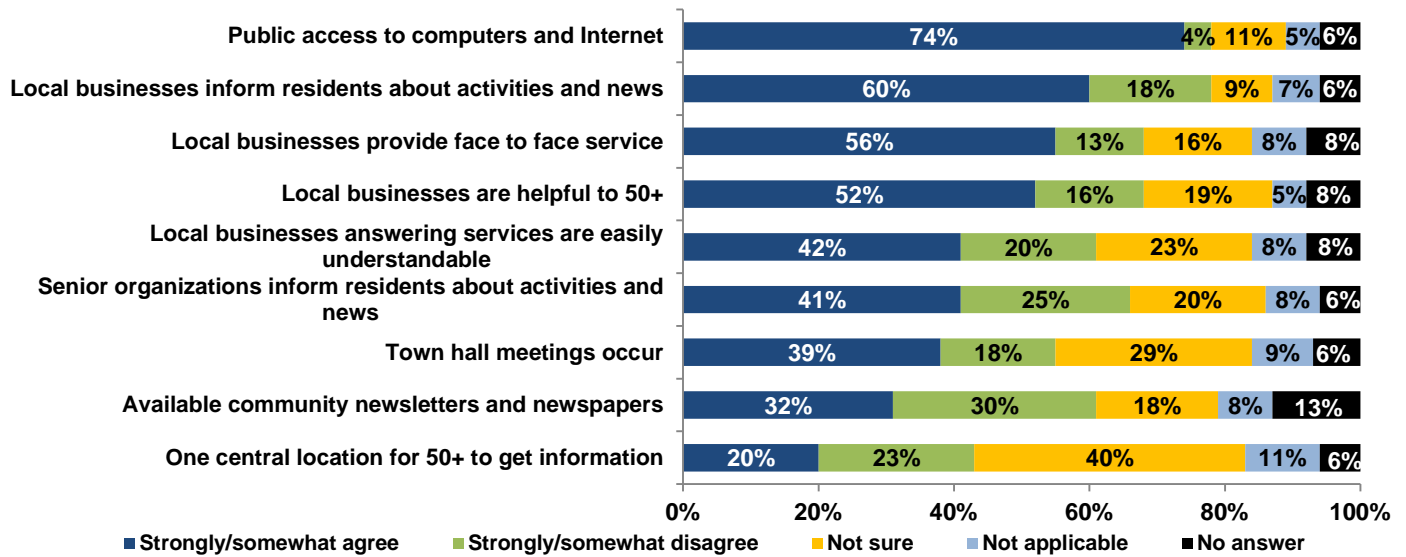

*Graph shows respondents who checked "yes" under each mode of transportation.

Des Moines/Polk County residents age 50+ agree their neighborhood has public access to computers and the Internet as well as businesses that inform residents of activities and news.

When thinking about the information that local organizations and services in their neighborhood provide, nearly three in four Des Moines/Polk County residents age 50+ strongly or somewhat agree their neighborhood has public access to computers and the Internet. Three in five agree local businesses do a good job of informing residents about neighborhood activities, news and issues. About half agree local businesses provide face to face service and are helpful to 50+ adults.

About two in five agree local businesses answering services are easy to understand, senior organizations do a good job of providing information to older residents and town hall meetings are held. Less than a third strongly or somewhat agrees there are community newsletters and newspapers available and there is one central location for older adults to get information that is relevant to them.

Level of Agreement with Neighborhood Organizations and Services Ability to Provide Information* (N=724)

*Percentages may not add up to 100 due to rounding.

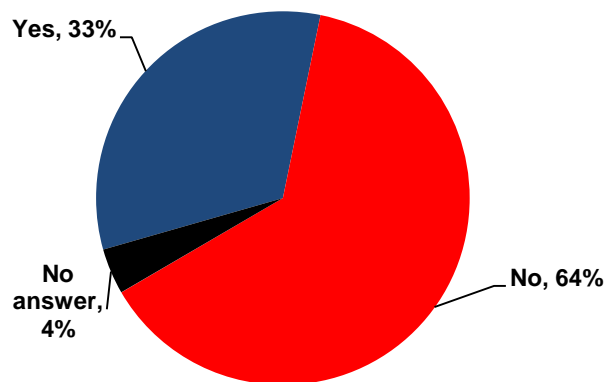

Communication

Although most Des Moines/Polk County residents age 50+ have cell phones they still receive most of their phone calls on their landlines.

Nearly nine in ten (87%) Des Moines/Polk County residents age 50+, or someone living in their household, have or has a working cell phone.

Of these residents (n=631), a third says their cell phone is a smartphone while nearly two-thirds say it is not a smartphone.

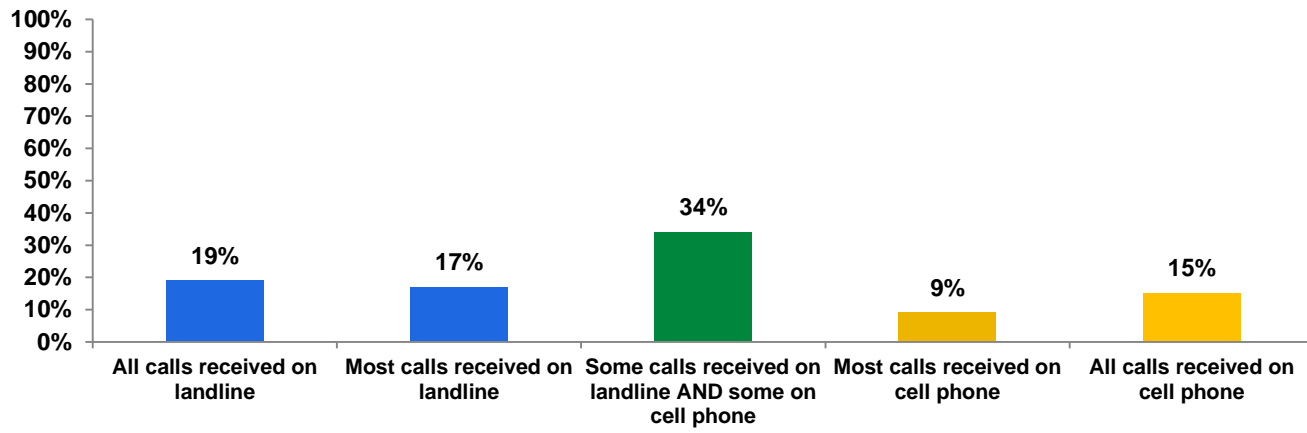

Smart Phone Ownership Among Des Moines/Polk County Residents Age 50+* (n=631, Respondents Who Have a Cell Phone)

*Percentages may not add up to 100 due to rounding.

Over a third (37%) of Des Moines/Polk County residents age 50+ say they receive all or most of their calls on their landline while about the same proportion says they receive some calls both their landline AND their cell phone. Only 15 percent say they receive all of their calls on their cell phone.

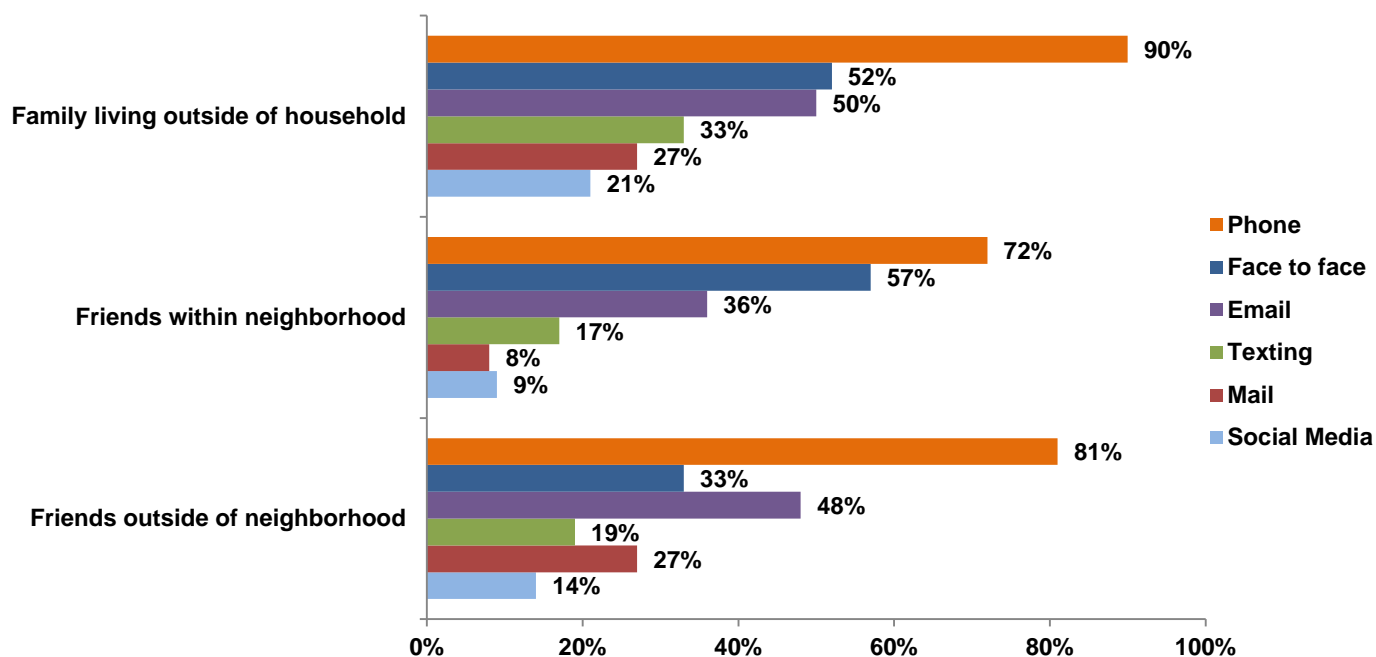

Method of Receiving Phone Calls Among Des Moines/Polk County Residents Age 50+ (N=724)

Des Moines/Polk County residents age 50+ prefer communicating with family, friends, coworkers and businesses by telephone over any other method.

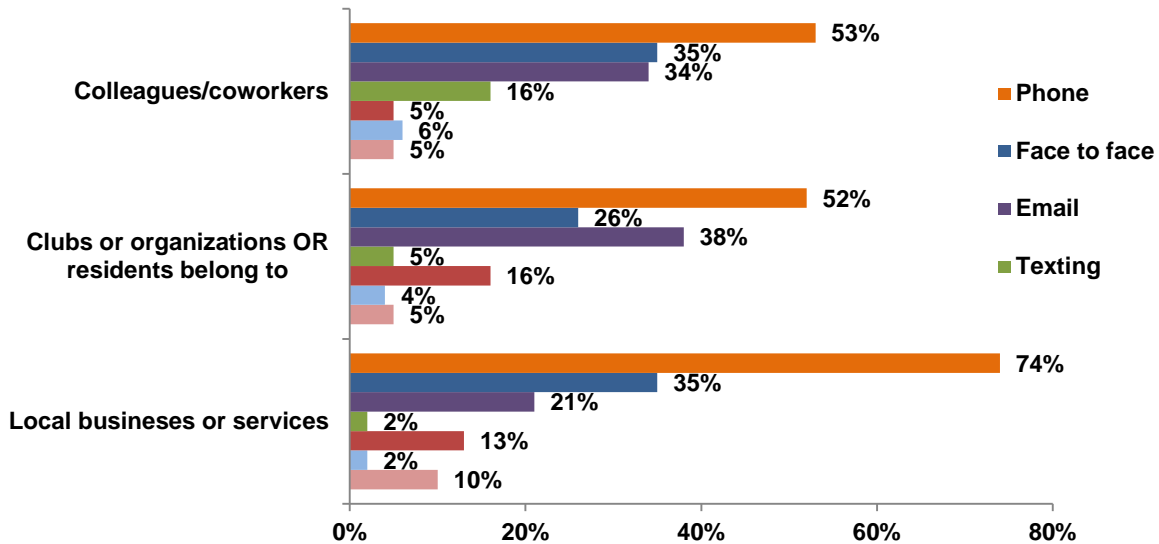

Survey respondents were given various methods of communication and asked how they typically communicate with their family, friends, work colleagues and businesses and organizations. At least seven in ten say they communicate with family, outside of their household and friends both within and outside of their neighborhood by phone. The next most preferred methods of communication with family and friends are face to face visits and email with more Des Moines/Polk County residents preferring email for family and friends who live outside of their neighborhood. About a third prefers texting with family outside their household while about one in six prefers texting with friends both inside and outside their neighborhood. Just over a quarter prefer to communicate by mail with family and friends outside of their neighborhood and fewer prefer using Social Media to communicate.

Method of Communicating with Family/Friends Among Des Moines/Polk County Residents Age 50+ (N=724)

The same trend occurs when looking at the preferred communication methods with work colleagues, membership organizations and businesses. Again, phone is the most preferred communication method among Des Moines/Polk County residents age 50+ with about three in four saying they communicate with local businesses via phone and about half say they use this method of communication with coworkers and clubs or organizations they belong to. About a third communicates face to face with coworkers and local businesses while a quarter use this method with clubs or organizations they belong to. About a third also uses email to communicate with coworkers and clubs or organizations and one in five uses this method with local businesses. Far fewer communicate using mail, Social Media or websites.

Method of Communicating with Work Colleagues, Clubs and Businesses Among Des Moines/Polk County Residents Age 50+ (N=724)

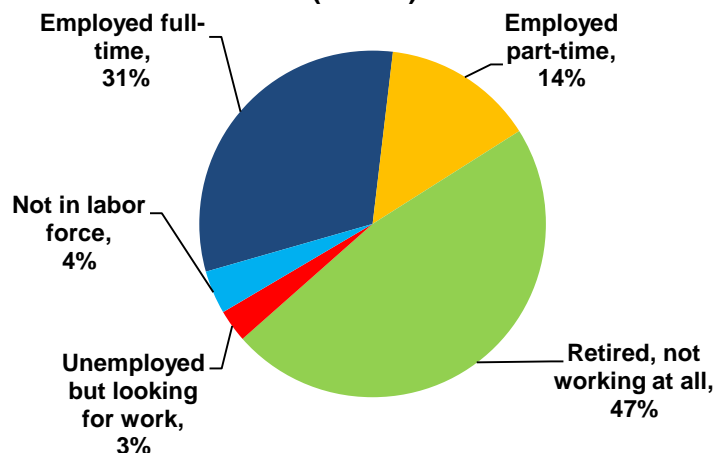

Work and Retirement

Many Des Moines/Polk County residents age 50+ are currently working and plan to put off retirement for as long as possible.

Over two in five (45%) Des Moines/Polk County residents age 50+ are employed either full or part-time while nearly half is retired and not working at all.

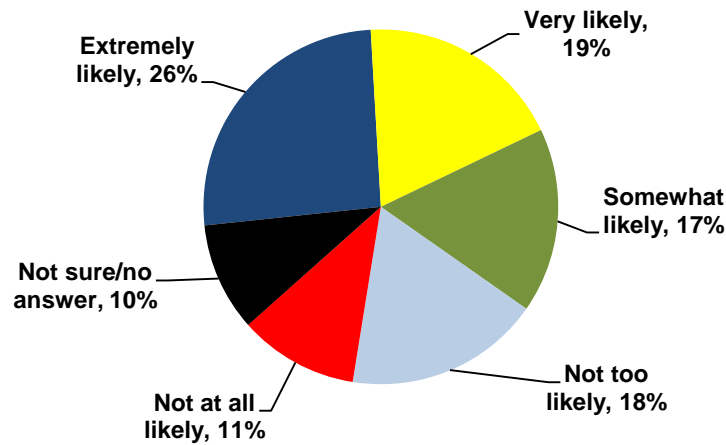

Employment Status of Des Moines/Polk County Residents Age 50+* (N=724)

*Percentages may not add up to 100 due to rounding.

Over two in five (45%) Des Moines/Polk County residents age 50+ say they are extremely or very likely to put off full retirement as long as possible while another one in six says they are somewhat likely to do this.

Likelihood of Putting Off Full Retirement*
(n=361, Respondents Who Are Currently in the Workforce)

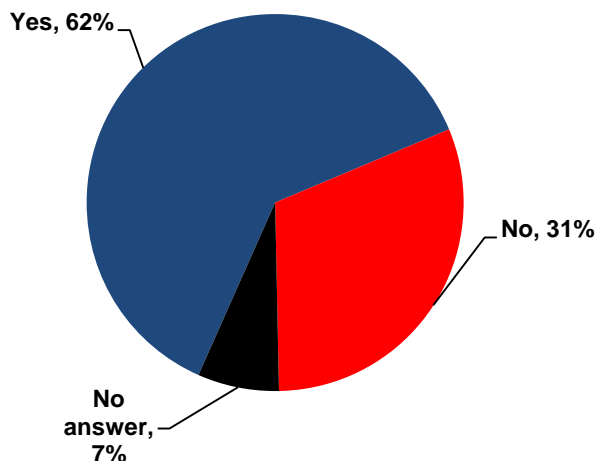

*Percentages may not add up to 100 due to rounding.

Des Moines/Polk County residents age 50+ believe that 50+ adults face workplace age discrimination and most agree Iowa needs to ensure that these adults can work as long as they want to regardless of their age.

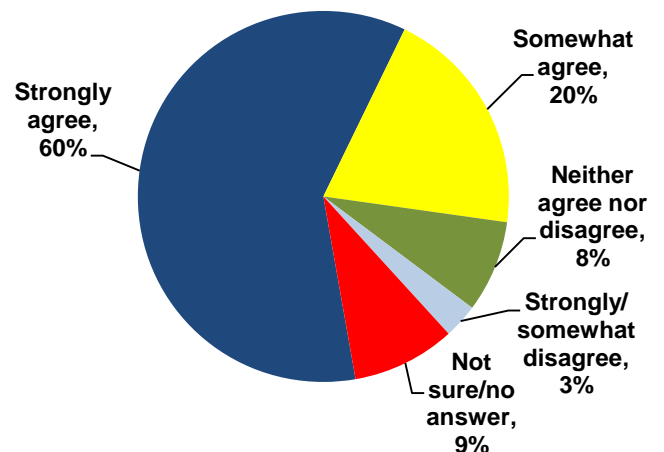

More than three in five Des Moines/Polk County residents age 50+ say they think people over age 50 face age discrimination in the workplace. In fact 23 percent say they know someone who has faced age discrimination in the workplace such as refusal to hire, reduced compensation or limitations by an employer.

Four in five (80%) agree the state of Iowa needs to do more to ensure that people age 50 and older have equal opportunity to work for as long as they want or need to regardless of their age with 60 percent of these respondents strongly agreeing with this concept.

Do Des Moines/Polk County 50+ Residents Believe 50+ Adults Face Workplace Age Discrimination Today?
(N=724)

Level of Agreement that Iowa Needs to Ensure 50+ Adults Can Continue to Work Regardless of Age
(N=724)

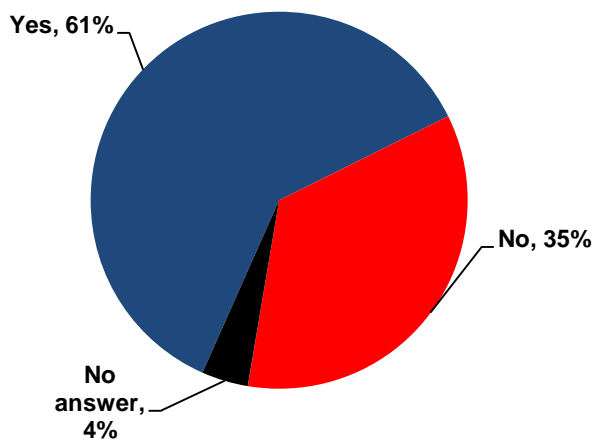

Religious/Faith Practice in Your Community

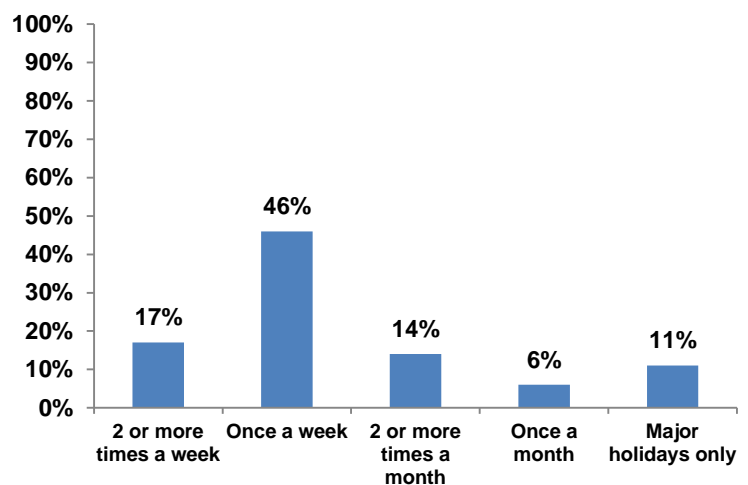

Des Moines/Polk County residents age 50+ belong to faith-based organizations and they regularly attend religious services.

Three in five say they are members of a religious or faith-based organization. More than three in five (62%) attend religious services once a week or more while one in seven says they attend services two or more times a month. About one in ten says they only attend religious services on major holidays.

Membership in a Religious/Faith-Based Organization Among Des Moines/Polk County Residents Age 50+ (N=724)

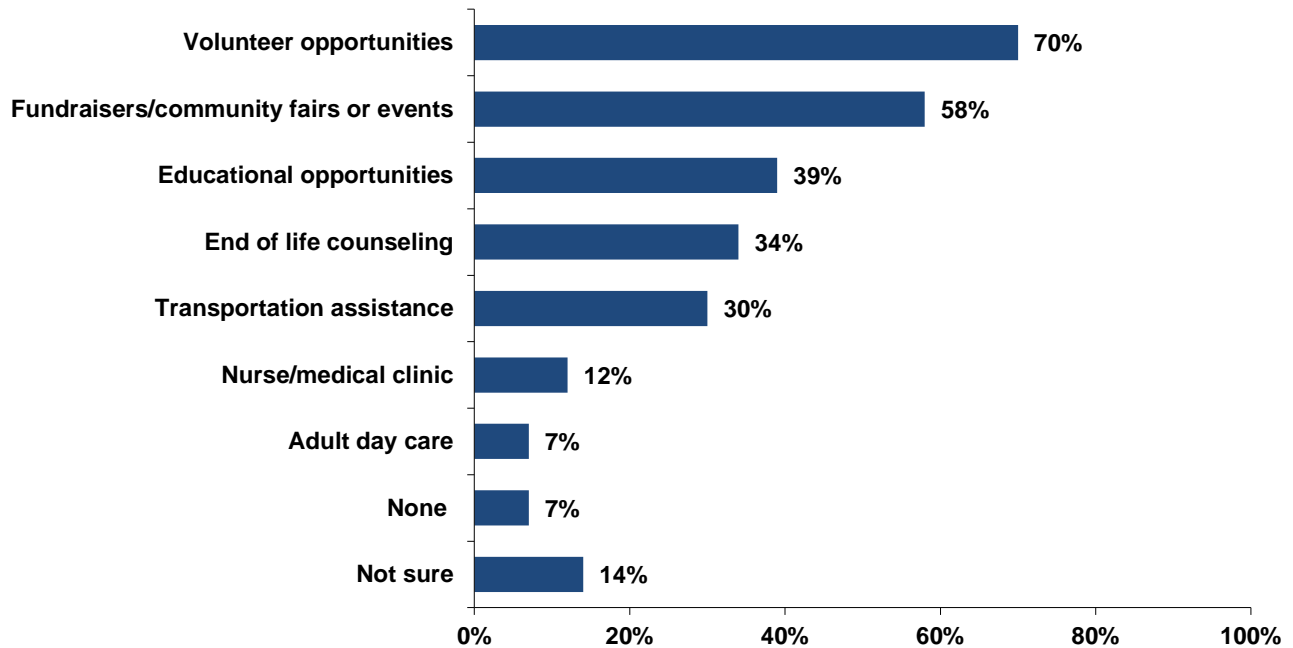

Frequency of Attending Religious Services Among Des Moines/Polk County Residents Age 50+ (n=442, Respondents Who Belong to a Religious/Faith-Based Organization)

Survey respondents who say they belong to religious or faith-based organizations were given a list of services and activities and asked if their faith-based organizations have these services and activities.

Seven in ten of these respondents say their faith-based organization has volunteer opportunities and about three in five say the faith-based organization they belong to has fundraisers or community fairs and events. Two in five say educational opportunities are offered at their faith-based organization while about a third says there is end of life counseling and transportation assistance offered here. About one in ten or fewer say their faith-based organization has nurses or medical clinics or adult day care. Only seven percent say their faith-based organization does not offer any of these services or activities and about one in seven says they are not sure what their faith-based organization has to offer.

Religious Organization Services and Events*
 (n=442, Respondents Who Belong to a Religious/Faith-Based Organization)

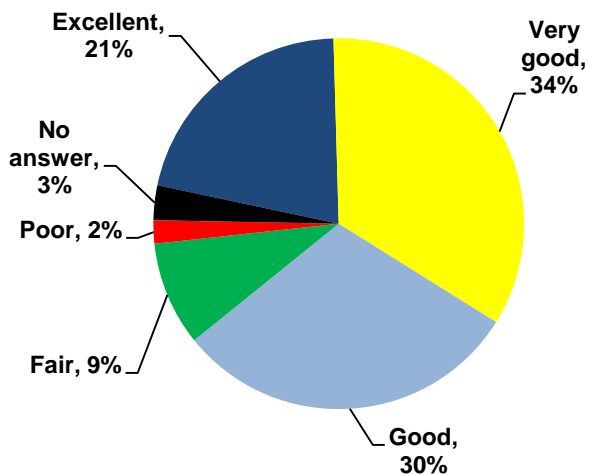

*Graph shows respondents who checked that each event or service was available within their religious/faith-based organization.

Health and Wellness

Des Moines/Polk County residents age 50+ believe they are in good health and that it is important for them to remain physically active.

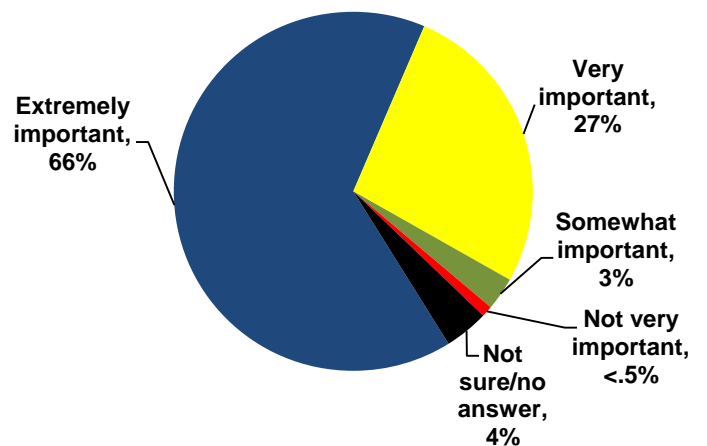

Over four in five (85%) Des Moines/Polk County residents age 50+ say they are in excellent, very good or good health. Moreover, nearly all (96%) say it is important to them to remain physically active for as long as possible.

(N=724)

*Percentages may not add up to 100 due to rounding.

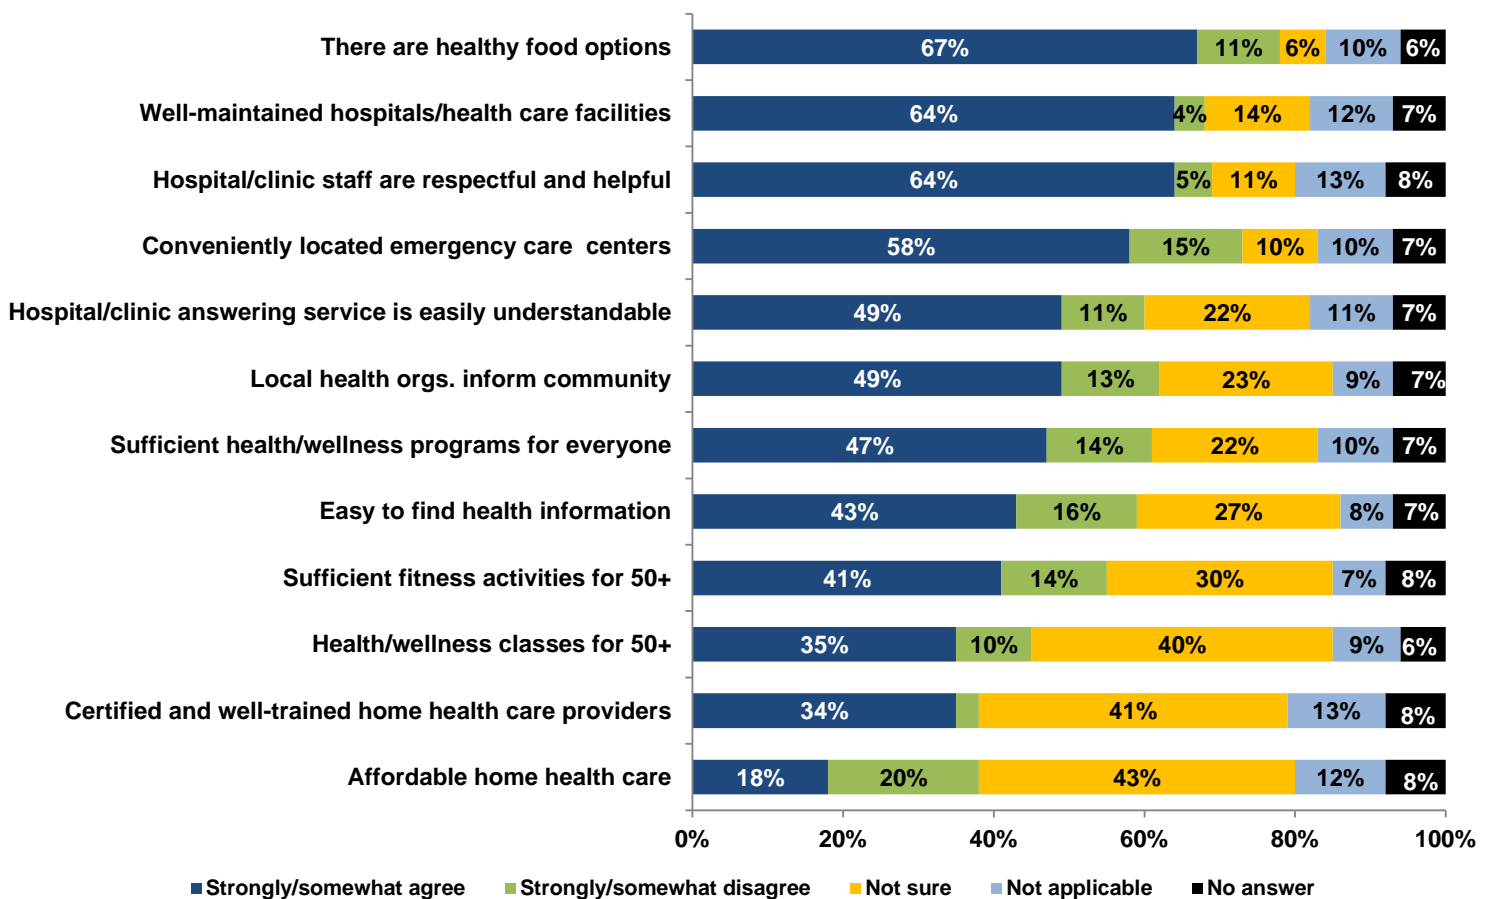

Importance of Remaining Physically Active*
(N=724)

*Percentages may not add up to 100 due to rounding.

When thinking about community health services in their neighborhood, about two-thirds of Des Moines/Polk County residents age 50+ strongly or somewhat agree there are healthy food options, like farmer’s markets and community gardens, well-maintained hospitals and health care facilities and hospital and clinic staff within their community is respectful and helpful to patients. Approximately three in five agree there are conveniently located emergency care centers in their neighborhood and about half agree neighborhood hospitals and clinics have easily understandable answering services, local health organizations do a good job of informing the community about important health issues and there are wellness programs for all residents. About two in five agree information on health issues is easy to find in their neighborhood and there are sufficient activities for 50+ adults. About a third strongly or somewhat agrees there are health and wellness classes for 50+ adults and there are neighborhood home health care providers who are certified and well-trained. Fewer than one in five agrees there is affordable home health care in their neighborhood.

Level of Agreement with Neighborhood Health Service Characteristics* (N=724)

*Percentages may not add up to 100 due to rounding.

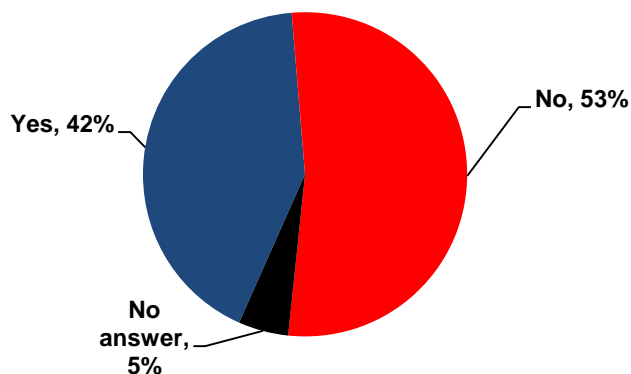

Caregiving and Grandparenting

Many Des Moines/Polk County residents age 50+ have provided unpaid care to an adult relative or friend in the past, and many currently provide care for their grandchildren.

More than two in five Des Moines/Polk County residents age 50+ say they have provided unpaid care such as doing household chores or helping with personal or financial needs to a spouse, other relative, partner or friend in the past two years.

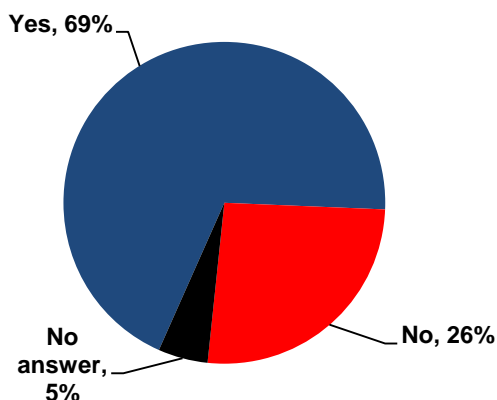

When asked if they are currently receiving any unpaid care or assistance, three percent of Des Moines/Polk County residents age 50+ say they are receiving this type of care from a spouse or partner. Another five percent say they are receiving this type of care from a family member other than their spouse or partner, and two percent say they are receiving help from a friend or neighbor.

Have Des Moines/Polk County Residents Age 50+ Provided Caregiving in the Past Two Years?
(N=724)

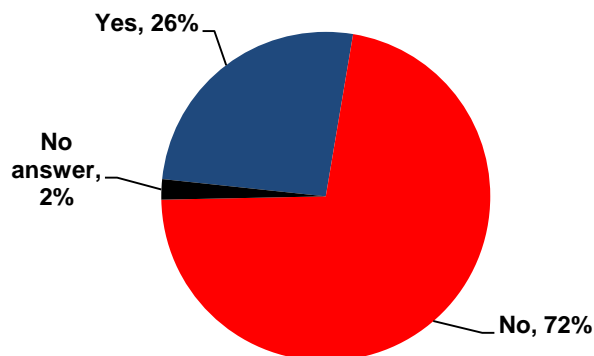

About seven in ten Des Moines/Polk County residents age 50+ are grandparents and of these residents, over a quarter says they help with the day-to-day responsibilities of caring for these children. Another one in eight (13%) says they provide care to the children or grandchildren of their friends or neighbors.

- 16% \$30,000 to \$49,999
- 18% \$50,000 to \$74,999
- 10% \$75,000 to \$99,999
- 10% \$100,000 to \$149,999
- 5% \$150,000 or more
- 6% Not sure
- 12% No answer

D13. What is your 5-digit Iowa ZIP Code?

**Thank you very much for completing this survey.
Your assistance in providing this information is very much appreciated.**

**Please return your completed survey by September 5, 2012
in the enclosed postage-paid envelope to:
AARP State Research
601 E Street, NW
Washington, DC 20049**

Full Methodology

AARP commissioned a mail survey on the topic of age friendly communities of 3,500 residents age 50 and older living in Greater Des Moines/Polk County, Iowa. AARP purchased a sample from SSI, Inc. of household addresses in Greater Des Moines/Polk County, Iowa where at the age of head of household is 50 years or older.

The survey was fielded in September 2012 and exactly 724 useable surveys were returned by the cut-off date, for a response rate of 21 percent. Each sampled resident was contacted about the survey four times receiving the following pieces of mail: pre-notification postcard, the survey itself, a reminder postcard, and a second copy of the survey. The survey has a margin of error of ± 3.7 percent. This means that if 95 out of 100 samples of this same size and population were given the same survey, the responses to the questions would fall within a range of plus or minus 3.7 percentage points of what would have been obtained if every resident age 50 years and older in the sampled area were asked the same questions.

Percentages may not add to 100 percent due to rounding, multiple answers permitted for some items and non-response. Percentages in the text may also differ slightly from the graphs due to rounding.

AARP is a nonprofit, nonpartisan organization, with a membership of more than 37 million, that helps people turn their goals and dreams into real possibilities, strengthens communities and fights for the issues that matter most to families such as healthcare, employment and income security, retirement planning, affordable utilities and protection from financial abuse. We advocate for individuals in the marketplace by selecting products and services of high quality and value to carry the AARP name as well as help our members obtain discounts on a wide range of products, travel, and services. A trusted source for lifestyle tips, news and educational information, AARP produces AARP The Magazine, the world's largest circulation magazine; AARP Bulletin; www.aarp.org; AARP TV & Radio; AARP Books; and AARP en Español, a Spanish-language website addressing the interests and needs of Hispanics. AARP does not endorse candidates for public office or make contributions to political campaigns or candidates. The AARP Foundation is an affiliated charity that provides security, protection, and empowerment to older persons in need with support from thousands of volunteers, donors, and sponsors. AARP has staffed offices in all 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Learn more at www.aarp.org.

State Research brings the right knowledge at the right time to our state and national partners in support of their efforts to improve the lives of people age 50+. State Research consultants provide strategic insights and actionable research to attain measurable state and national outcomes. The views expressed herein are for information, debate, and discussion, and do not necessarily represent official policies of AARP.

AARP staff from the Iowa State Office, State and National Group and State Research contributed to the design, implementation and reporting of this study. Special thanks go to AARP staff including Kent Sovern, State Director, Ann Black, Associate State Director of Communications for AARP in Iowa; Coralette Hannon, State and National Group; Rachelle Cummins, Darlene Matthews, Jennifer Sauer and Cheryl Barnes, State Research; and Michael Schuster, Office of General Counsel. Please contact Joanne Binette at 202-434-6303 for more information regarding this survey.
