

Customizing Your Implementation Plan for Your Community

The following questions can help determine if a service, program, event, or activity may contribute to your team's goals:

1 Is a program similar to this one already in place in your community? (If yes, you may partner with that program to enhance the work it is doing.)

No Yes (Please provide details.) _____

2 What implications (good and bad) may result from the implementation of this service, program, event, or activity?

3 Have other municipalities implemented a similar approach? No Yes

If yes, list the municipalities plus contact information so that implementation insights can be obtained:

Municipality: _____ Contact: _____

Municipality: _____ Contact: _____

Municipality: _____ Contact: _____

4 List any size, resource, or geographical differences between that municipality, or municipalities, and your own:

5 How will these differences affect implementation of your plan?

6 What lessons did the municipality/municipalities share with you about implementation of the plan?

7 How will your a your team take advantage of the insights provided by other municipalities?

Please use the table below to summarize the information gathered above.

Will the initiative...	Yes	No	Questions/comments
...address the needs identified in our Livable Communities assessment?			
...align with our Livable Communities project mission?			
...be practical in your community?			
...be effective?			
...be cost-effective?			
...be easy to put into practice?			
...require hiring an outside consultant?			
...require money for implementation?			
...be accepted by the people expected to benefit from it?			
...be embraced by the community as a whole?			

Notes: _____
