Impacts of High Rx Prices to U.S. Residents

26,616,925 U.S. residents diagnosed with cancer.¹
22,779,074 U.S. residents have diabetes.¹
23,457,031 U.S. residents have asthma & or COPD.¹*

Between 2015 and 2020, the price of these name brand drugs increased:

- **Revlimid** treats forms of cancer
  - from $185,574/yr to $267,583/yr²
- **Victoza** treats diabetes
  - from $7,936/yr to $11,300/yr²
- **Spiriva Handihaler** treats asthma/COPD
  - from $3,886/yr to $5,289/yr²

It is outrageous for Americans to pay more than 3 times what people in other countries pay for the same medicines.

**Congress: Stop unfair drug prices.**
