Impacts of High Rx Prices to Vermont Residents

59,703 Vermont residents diagnosed with cancer.¹
36,202 Vermont residents have diabetes.¹
55,144 Vermont residents have asthma & or COPD.¹*

Between 2015 and 2020, the price of these name brand drugs increased:

- Revlimid: treats forms of cancer
  - From $185,574/yr to $267,583/yr²

- Victoza: treats diabetes
  - From $7,936/yr to $11,300/yr²

- Spiriva Handihaler: treats asthma/COPD
  - From $3,886/yr to $5,289/yr²

It is outrageous for Americans to pay more than 3 times what people in other countries pay for the same medicines.

Congress: Stop unfair drug prices.
