Caring Connections, a program of the National Hospice and Palliative Care Organization (NHPCO), is a national consumer engagement initiative to improve care at the end of life.

#### **It's About How You LIVE**

*It's About How You LIVE* is a national community engagement campaign encouraging individuals to make informed decisions about end-of-life care and services. The campaign encourages people to:

- Learn about options for end-of-life services and care
- Implement plans to ensure wishes are honored
- Voice decisions to family, friends and health care providers
- Engage in personal or community efforts to improve end-of-life care

**Note:** The following is not a substitute for legal advice. While Caring Connections updates the following information and form to keep them up-to-date, changes in the underlying law can affect how the form will operate in the event you lose the ability to make decisions for yourself. If you have any questions about how the form will help ensure your wishes are carried out, or if your wishes do not seem to fit with the form, you may wish to talk to your health care provider or an attorney with experience in drafting advance directives.

## Using these Materials

### BEFORE YOU BEGIN

1. Check to be sure that you have the materials for each state in which you may receive health care.
2. These materials include:
  - Instructions for preparing your advance directive, please read all the instructions.
  - Your state-specific advance directive forms, which are the pages with the gray instruction bar on the left side.

### ACTION STEPS

1. You may want to photocopy or print a second set of these forms before you start so you will have a clean copy if you need to start over.
2. When you begin to fill out the forms, refer to the gray instruction bars — they will guide you through the process.
3. Talk with your family, friends, and physicians about your advance directive. Be sure the person you appoint to make decisions on your behalf understands your wishes.
4. Once the form is completed and signed, photocopy the form and give it to the person you have appointed to make decisions on your behalf, your family, friends, health care providers, and/or faith leaders so that the form is available in the event of an emergency.
5. Vermont maintains an Advance Directive Registry. By filing your advance directive with the registry, your health care provider and loved ones may be able to find a copy of your directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at <http://healthvermont.gov/vadr/index.aspx>.
6. You may also want to save a copy of your form in an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.

## INTRODUCTION TO YOUR VERMONT ADVANCE DIRECTIVE

This packet contains a legal document, a **Vermont Advance Directive**, that protects your right to refuse medical treatment you do not want, or to request treatment you do want, in the event you lose the ability to make decisions yourself. You may complete and or all of the parts of this advance directive, depending on your advance-planning needs. You must complete Part 9.

**Part 1. Appointment of an Agent.** This part lets you name an adult, your “agent,” to make decisions about your medical care—including decisions about life-sustaining procedures—if you can no longer speak for yourself. This is especially useful because it appoints someone to speak for you any time you are unable to make your own medical decisions, not only at the end of life.

Your agent’s authority will become effective:

- When your physician determines that you no longer have the **capacity** to make health care decisions, such as when you are unconscious or cannot communicate, and your physician has made reasonable efforts to notify you and your agent of such determination; or
- **Immediately** upon signing the advance directive if you so specify; or
- When a **condition** you specify is met, such as diagnosis of a debilitating disease such as Alzheimer’s Disease or serious mental illness; or
- When an **event** occurs that you want to mark the start of your agent’s authority, such as when you move to a nursing home or other institution.

**Part 2** allows you to specify who may and may not be involved in determining your health care.

**Part 3** allows you to record a statement of your values and goals to help guide your health care.

**Part 4** allows you to record your health care treatment wishes if you are close to death or are unconscious and unlikely to become conscious again.

**Part 5** allows you to record your wishes for treatment other than at the end of life.

**Part 6** allows you to record your wishes regarding organ and tissue donation.

**Part 7** allows you to appoint an agent for the disposition of your remains and to record your wishes regarding the final disposition of your remains.

**Part 8** allows you to record any other advance planning consideration that you do not feel is adequately covered by the other parts.

**Part 9** contains the witnessing and signature provisions to make your document effective.

This form does not expressly address mental illness. If you would like to make advance care plans regarding mental illness, you should talk to your physician and an attorney about an advance directive tailored to your needs.

*Note: This document will be legally binding only if the person completing it is an individual of sound mind who is 18 years or older.*

## **COMPLETING YOUR VERMONT ADVANCE DIRECTIVE**

### **How do I make my Vermont Advance Directive legal?**

In Part 9, you must sign and date your document in front of two witnesses, aged 18 or older. Neither witness can be your spouse, agent, parent, brother, sister, child, grandchild, or reciprocal beneficiary.

If you are in a hospital, nursing home, or residential care facility when you complete your advance directive, you will need a third person's signature to certify that he or she has explained the advance directive to you and that you understand the impact and effect of what you are doing. This third person may be a hospital designee, a long-term care ombudsman, an attorney licensed to practice in Vermont, a clergyperson, or a probate division of the superior court designee.

### **Whom should I appoint as my agent?**

Your agent is the person you appoint to make decisions about your health care if you become unable to make those decisions yourself. Your agent may be a family member or a close friend whom you trust to make serious decisions. The person you name as your agent should clearly understand your wishes and be willing to accept the responsibility of making health care decisions for you.

You can appoint a second and third person as your alternate agent(s). The alternate will step in if the first person you name as an agent is unable, unwilling, or unavailable to act for you.

You cannot appoint your doctor or other health care clinician to be your agent. If you are in a residential facility, a health care facility, or a correctional facility, an owner, operator, employee and/or contractor of the facility cannot be your agent unless such person is related to you by blood, marriage, civil union, or adoption.

Part 7 allows you to appoint a person, also called an agent, to oversee the final disposition of your remains. This person may not be an unrelated funeral director, crematory operator, cemetery operator or an employee of a funeral director, crematory operator, or cemetery operator. He or she also may not be an unrelated employee or representative of an organ procurement organization.

### **Can I add personal instructions to my Vermont Advance Directive?**

One of the strongest reasons for naming an agent is to have someone who can respond flexibly as your health care situation changes and deal with situations that you did not foresee. If you add instructions to this document it may help your agent carry out your wishes, but be careful that you do not unintentionally restrict your agent's power to act in your best interest. In any event, be sure to talk with your agent about your future medical care and describe what you consider to be an acceptable "quality of life."

## **What if I change my mind?**

You may revoke your Advance Directive by completing a new advance directive.

You may revoke or suspend all or part of your Advance Directive by doing any of the following things:

1. Signing a statement suspending or revoking the designation of your agent;
2. Personally informing your doctor and having him or her note that on your record;
3. By burning, tearing, or obliterating the Advance Directive either personally or at your direction when you are present;
4. For any provision (other than designation of your agent), when you state orally or in writing, or indicating by any other act of yours that your intent is to suspend or revoke any Part or statement contained in your Advance Directive; or
5. By executing a new Advance Directive.

## **What other important information should I know?**

You may expressly provide in your Advance Directive that, in the event you lack capacity to make health care decisions, your agent may authorize or withhold health care over your objection. In order for this provision to be effective, the following must occur:

1. You must name an agent in your Advance Directive;
2. Your agent must accept in writing the responsibility for authorizing or withholding health care over your objection;
3. Your physician must sign this provision and affirm that you understood the benefits, risks, and alternatives of such a provision;
4. A long-term care ombudsman, an attorney licensed to practice in Vermont, a clergy person, or a probate division of the superior court designee must sign a statement affirming that he or she has explained the provision to you and you appear to understand the provision and are free from duress or undue influence (this person must be a disinterested party and independent of the hospital if you are in the hospital when the provision is executed);
5. You must specify the treatments to which this provision applies; and
6. You must acknowledge that you are knowingly and voluntarily waiving the right to refuse or receive treatment at a time of incapacity, as determined by your physician and one other physician.

If you decide to include language regarding care given over your objection, you may wish to speak with your health care provider or an attorney with experience in drafting advance directives regarding this language. Any such language may be included in Part 8 of the *Vermont Advance Directive*.

Your agent does not have the authority to consent to voluntary sterilization.

## You Have Filled Out Your Health Care Directive, Now What?

1. Your *Vermont Advance Directive* is an important legal document. Keep the original signed document in a secure but accessible place. Do not put the original document in a safe deposit box or any other security box that would keep others from having access to it.
2. Give photocopies of the signed original to your agent and alternate agent, doctor(s), family, close friends, clergy, and anyone else who might become involved in your health care. If you enter a nursing home or hospital, have photocopies of your document placed in your medical records.
3. Be sure to talk to your agent(s), doctor(s), clergy, family, and friends about your wishes concerning medical treatment. Discuss your wishes with them often, particularly if your medical condition changes.
4. Vermont maintains an Advance Directive Registry. By filing your advance directive with the registry, your health care provider and loved ones may be able to find a copy of your directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at <http://healthvermont.gov/vadr/index.aspx>.
5. You may also want to save a copy of your form in an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.
6. If you want to make changes to your documents after they have been signed and witnessed, you must complete a new document.
7. Remember, you can always revoke your Vermont document.
8. Be aware that your Vermont document will not be effective in the event of a medical emergency. Ambulance and hospital emergency department personnel are required to provide cardiopulmonary resuscitation (CPR) unless they are given a separate directive that states otherwise. These directives called "prehospital medical care directives," "do not resuscitate orders," or "clinician orders for life-sustaining treatment" are designed for people whose poor health gives them little chance of benefiting from CPR. These directives instruct ambulance and hospital emergency personnel not to attempt CPR if your heart or breathing should stop.

Vermont authorizes a "Clinician Orders for Life-Sustaining Treatment" or "COLST" form that addresses these issues. We suggest you speak to your physician if you are interested in obtaining one. **Caring Connections does not distribute these forms.**
