Nearly **HALF (48%)** of Washington adults have been targets of an impostor scam.

Nearly **A QUARTER (23%)** of Washington adults who were targeted and/or victimized by an impostor scam have experienced health problems and/or emotional distress resulting from the encounter.

**THREE IN FOUR (74%)** WASHINGTON adults who were targeted and/or victimized by an impostor scam were first contacted by phone.

More than **TWO IN FIVE (44%)** Washington adults use the Internet to meet potential dates and/or romantic partners — and more than **HALF (54%)** have experienced at least one red flag from a love interest they met online (e.g., being asked to send money).

**SEVEN IN TEN (69%)** Washington adults are not familiar with Census scams. This makes them particularly vulnerable, as Census scams are expected to rise substantially given that the Decennial Census is this year.
