AFRICAN-AMERICANS age 50+ SOCIAL ISSUES

Sample: AA/B 50+ ; N = 650
Contact: Xenia Montenegro, AARP Research, xmontenegro@aarp.org

There’s more optimism we’re moving in the right direction in health care, technology, and education.

More than half are extremely or very optimistic we’re moving in the right direction regarding health care, access to technology, and high quality education!

There is less optimism on finances, employment, race and age discrimination — under half extremely or very pessimistic.

For most — health, finances, and education are extremely or very important....

- Access to high quality health care: 91%
- Having a financially secure retirement: 91%
- Access to high quality health care info: 89%
- Access to high quality education: 85%
- Employment discrimination based on race: 82%
- Access to better employment opportunities: 77%
- Employment discrimination based on age: 74%
- Access to technology: 68%

Importance of social issues
