

# Lessons Learned Health Study – General Population: Annotated Questionnaire

**STUDY  
POPULATION:** Adults 40 or older

**FIELD DATES:** October 3 thru 12, 2022

**DATA  
COLLECTION  
VENDOR:** ANR Market Research Consultants

**TOTAL SAMPLE  
SIZE:** 1,546

**MOE:**  $\pm 3.1$  pct pts for total population

**NOTES:**

- Non-probability based sample (weighted to represent the 40+ population)
- Percentages may not add to 100%
- Conducted in English or Spanish upon request
- Includes African American/Black and Hispanic/Latino oversamples
- DOI: <https://doi.org/10.26419/res.00581.007>

A. Would you like to continue the survey in English, or would you prefer to continue in Spanish?

|                   | <b>Total (%)</b> | <b>Male</b> | <b>Female</b> | <b>Age 40-49</b> | <b>Age 50-59</b> | <b>Age 60+</b> |
|-------------------|------------------|-------------|---------------|------------------|------------------|----------------|
| <b>Weighted n</b> | 1000             | 472         | 526           | 260              | 261              | 478            |
| <b>English</b>    | 98               | 98          | 98            | 97               | 96               | 99             |
| <b>Spanish</b>    | 2                | 2           | 3             | 3                | 4                | 1              |

## **Screenener**

D1. How old are you? (TERMINATE IF UNDER 40 or REFUSED) (Programmer – create separate variable called age\_coded: 40-49, 50-59, 60-64, 65-74, 75+)

|                   | <b>Total (%)</b> | <b>Male</b> | <b>Female</b> | <b>Age 40-49</b> | <b>Age 50-59</b> | <b>Age 60+</b> |
|-------------------|------------------|-------------|---------------|------------------|------------------|----------------|
| <b>Weighted n</b> | 1000             | 472         | 526           | 260              | 261              | 478            |
| <b>40-49</b>      | 26               | 24          | 28            | 100              | 0                | 0              |
| <b>50-59</b>      | 26               | 22          | 30            | 0                | 100              | 0              |
| <b>60-64</b>      | 14               | 16          | 13            | 0                | 0                | 30             |
| <b>65-74</b>      | 20               | 20          | 19            | 0                | 0                | 41             |
| <b>75+</b>        | 14               | 18          | 10            | 0                | 0                | 29             |

B. What is your 5-digit zip code? \_\_\_\_\_

## Overall health/wellness

1. How would you rate your: [Randomized A-C with random reverse answer selection]

### A. Physical health

|                   | Total (%) | Male | Female | Age 40-49 | Age 50-59 | Age 60+ |
|-------------------|-----------|------|--------|-----------|-----------|---------|
| <b>Weighted n</b> | 1000      | 472  | 526    | 260       | 261       | 478     |
| <b>Excellent</b>  | 10        | 13   | 8      | 13        | 10        | 8       |
| <b>Very good</b>  | 23        | 27   | 20     | 24        | 19        | 25      |
| <b>Good</b>       | 39        | 36   | 41     | 35        | 39        | 41      |
| <b>Fair</b>       | 21        | 19   | 23     | 19        | 24        | 21      |
| <b>Poor</b>       | 6         | 5    | 6      | 7         | 7         | 5       |
| <b>Skip</b>       | 2         | <1   | 3      | 2         | 2         | 1       |

### B. Emotional well-being

|                   | Total (%) | Male | Female | Age 40-49 | Age 50-59 | Age 60+ |
|-------------------|-----------|------|--------|-----------|-----------|---------|
| <b>Weighted n</b> | 1000      | 472  | 526    | 260       | 261       | 478     |
| <b>Excellent</b>  | 19        | 25   | 13     | 15        | 17        | 22      |
| <b>Very good</b>  | 26        | 30   | 24     | 22        | 23        | 31      |
| <b>Good</b>       | 31        | 27   | 35     | 31        | 33        | 30      |
| <b>Fair</b>       | 17        | 13   | 20     | 22        | 18        | 13      |
| <b>Poor</b>       | 5         | 4    | 7      | 10        | 6         | 3       |
| <b>Skip</b>       | 2         | 2    | 2      | 1         | 4         | 1       |

### C. Mental well-being

|                   | Total (%) | Male | Female | Age 40-49 | Age 50-59 | Age 60+ |
|-------------------|-----------|------|--------|-----------|-----------|---------|
| <b>Weighted n</b> | 1000      | 472  | 526    | 260       | 261       | 478     |
| <b>Excellent</b>  | 21        | 29   | 15     | 19        | 17        | 25      |
| <b>Very good</b>  | 27        | 31   | 24     | 22        | 25        | 31      |
| <b>Good</b>       | 28        | 23   | 33     | 24        | 29        | 30      |
| <b>Fair</b>       | 16        | 12   | 20     | 23        | 18        | 11      |
| <b>Poor</b>       | 6         | 4    | 7      | 10        | 6         | 3       |
| <b>Skip</b>       | 2         | 2    | 3      | 1         | 5         | 1       |

4. Compared to before the start of the COVID-19 pandemic (March 2020), would you say your health has improved, declined, or stayed the same?: [Random reverse answer selection]

|                        | <b>Total (%)</b> | <b>Male</b> | <b>Female</b> | <b>Age 40-49</b> | <b>Age 50-59</b> | <b>Age 60+</b> |
|------------------------|------------------|-------------|---------------|------------------|------------------|----------------|
| <b>Weighted n</b>      | 1000             | 472         | 526           | 260              | 261              | 478            |
| <b>Improved</b>        | 14               | 17          | 11            | 30               | 10               | 8              |
| <b>Stayed the same</b> | 63               | 64          | 62            | 48               | 65               | 70             |
| <b>Declined</b>        | 23               | 18          | 26            | 22               | 24               | 22             |
| <b>Skip</b>            | <1               | 0           | <1            | 0                | 1                | 0              |

5. Compared to before the start of the COVID-19 pandemic (March 2020), would you say your health is a higher priority now, a lower priority now, or about the same level of priority? [Random reverse answer selection]

|                        | <b>Total (%)</b> | <b>Male</b> | <b>Female</b> | <b>Age 40-49</b> | <b>Age 50-59</b> | <b>Age 60+</b> |
|------------------------|------------------|-------------|---------------|------------------|------------------|----------------|
| <b>Weighted n</b>      | 1000             | 472         | 526           | 260              | 261              | 478            |
| <b>Higher priority</b> | 38               | 38          | 38            | 45               | 38               | 34             |
| <b>Same priority</b>   | 58               | 58          | 59            | 50               | 58               | 62             |
| <b>Lower priority</b>  | 3                | 4           | 3             | 5                | 2                | 3              |
| <b>Skip</b>            | 1                | 1           | 1             | 0                | 2                | 1              |

## COVID Experiences/Attitudes

6. When was the last time you did any of the following actions because of the coronavirus (COVID-19 virus) outbreak? [Randomize A-I]

A. Stayed away from people other than immediate family members

|                                                             | Total (%) | Male | Female | Age 40-49 | Age 50-59 | Age 60+ |
|-------------------------------------------------------------|-----------|------|--------|-----------|-----------|---------|
| <b>Weighted n</b>                                           | 1000      | 472  | 526    | 260       | 261       | 478     |
| <b>In the past week</b>                                     | 15        | 14   | 15     | 15        | 16        | 14      |
| <b>In the past month</b>                                    | 9         | 8    | 9      | 12        | 10        | 7       |
| <b>Within the past 2 to 6 months</b>                        | 11        | 10   | 12     | 17        | 9         | 9       |
| <b>Between 6 months to a year ago</b>                       | 12        | 13   | 10     | 14        | 11        | 11      |
| <b>Between a year and two years ago</b>                     | 16        | 13   | 19     | 16        | 16        | 16      |
| <b>Two years ago or more</b>                                | 10        | 9    | 11     | 5         | 11        | 12      |
| <b>I never did this because of the coronavirus outbreak</b> | 18        | 19   | 16     | 17        | 16        | 19      |
| <b>Not applicable to me</b>                                 | 9         | 12   | 7      | 5         | 9         | 12      |
| <b>Skip</b>                                                 | 2         | 2    | 1      | 0         | 2         | 2       |

B. Self-isolated/quarantined

|                                                             | Total (%) | Male | Female | Age 40-49 | Age 50-59 | Age 60+ |
|-------------------------------------------------------------|-----------|------|--------|-----------|-----------|---------|
| <b>Weighted n</b>                                           | 1000      | 472  | 526    | 260       | 261       | 478     |
| <b>In the past week</b>                                     | 6         | 6    | 7      | 9         | 6         | 5       |

18b. How much do you trust the following sources of information about immunizations for adults, such as the flu or pneumonia shot? Please use a 5-point scale to rate each option, where 1 means you do not trust the source at all and 5 means you trust the source very much. [Programmer: Please have a matrix with options below with scale 1-5]

A. Your doctor or other healthcare professional

|                                | Total (%) | Male | Female | Age 40-49 | Age 50-59 | Age 60+ |
