INTRODUCTION

There are currently about 117 million Americans who are 50 and older; this number will grow to 157 million by 2050. The 50 and older population is and will continue to be an essential contributor to American society. Understanding the needs and opinions of older Americans is critical to ensuring they live longer and healthier lives.

Vital Voices is a new and exciting program of research undertaken by AARP. Through this research program, we are launching a new initiative that will deliver critical, current, and state-specific data on a rolling three-year schedule between 2019 and 2021. We are making this data available to the public to assist with the development of programs, products, and policies for older adults. This data will allow those in leadership positions to:

- Predict the need for a specific program or interest in a particular issue.
- Enhance program and product innovation and development.
- Track issues and attitudes over time to assess shifts in public opinion.
- Take action on critical advocacy issues.

Never before has AARP launched a research program of this size and with this much promise. We give it to you, hoping that it will significantly impact the work you do.

Health Questions

Issues That Impact U.S. LGBTQ Adults Age 45 and Older
U.S. LGBTQ adults age 45+ think many healthcare issues are important, with staying mentally sharp and physically healthy topping the list. Also, having Medicare and adequate health insurance are equally top priorities.

For the following list of issues, please indicate how important each is to you, personally. (Percent ‘extremely important’ or ‘very important’) (n=530)
Are you currently providing unpaid help to a relative or friend 18 years or older to help them take care of themselves? This would include doing things for them such as grocery shopping, providing transportation, managing finances, arranging for healthcare or other services, or preparing meals. (n=530)

About one-third (30%) of U.S. LGBTQ adults age 45+ are currently providing unpaid help to an adult relative or friend.

Percent Providing Unpaid Adult Care

- 30% Yes
- 70% No
The coronavirus has made providing care more difficult for 63% of the U.S. LGBTQ caregivers in the survey.

Percent Reporting that the Coronavirus Has Made Caregiving More Difficult (Among Caregivers)

- **63%** Yes
- **37%** No
CAREGIVING ISSUES

46% of the U.S. LGBTQ adults age 45+ who are not currently providing unpaid help have provided this type of care in the past.

Have you ever provided this type of unpaid help in the past? (n=373)

- Yes: 46%
- No: 54%
IMPACTS OF COVID-19

U.S. LGBTQ adults age 45+ have been impacted by COVID-19 in a variety of ways, many of which are increasing their social isolation.

Ways Impacted by COVID-19

- Sheltering at home to avoid contact with others: 86%
- Canceled travel plans: 79%
- Unable to see family members: 74%
- Canceled plans to attend large gatherings: 72%
- Having a difficult time worrying about the coronavirus: 58%
- Working from home (if not retired): 53%
- Met with physical or mental health providers using telehealth: 47%
- Got tested for coronavirus: 46%
- Canceled plans to volunteer: 42%
- Unable to attend religious gatherings: 31%
- Filed for unemployment: 17%
- Lost a job: 16%
- Not having access to high-speed Internet when you need it: 9%
- Officially diagnosed with coronavirus: 4%

Have you been affected by the coronavirus in any of the following ways? Please check all that apply. (Percent ‘yes’) (n=530)
As of December 2020, obtaining dental services has been described as somewhat hard or very hard by 29% of U.S. LGBTQ adults age 45+. Medical care is described as somewhat hard or very hard by 22% of the participants.

Difficulty Obtaining Resources Due to COVID-19

- Dental services: 29% somewhat hard, 13% very hard
- Medical care: 22% somewhat hard, 6% very hard
- Mental health services: 13% somewhat hard, 6% very hard
- Transportation: 11% somewhat hard, 5% very hard
- Prescription drugs: 6% somewhat hard, 2% very hard

CVD-3. How easy or difficult would you say it has been for you to get each of the following due to the coronavirus? (n=530)
As a result of the coronavirus pandemic, more than half (58%) of U.S. LGBTQ adults age 45+ would be **less likely** to want care for themselves or a loved one in a nursing home or assisted living facility.

Impact of COVID-19 on Opinion Regarding Care in a Group Setting

- More likely to want care in a group setting
- Not impacted opinion
- Less likely to want care in a group setting
- Don't know

As a result of the coronavirus pandemic, how has your opinion changed about having care for yourself or a loved one being provided in a group setting, such as a nursing home or assisted living facility? (n=530)
81% of LGBTQ participants are at least somewhat worried about getting COVID-19 in the next year.

Fear of COVID-19

- Extremely worried: 17%
- Very worried: 23%
- Somewhat worried: 42%
- Not very worried: 15%
- Not at all worried: 3%
- Don’t know: 1%

How worried are you about getting coronavirus in the next year? (n=530)

WEALTH

Most (57%) of U.S. LGBTQ adults age 45+ expect that their personal financial situation will stay the same in the next 12 months, 25% think it will improve, and 18% think it will get worse.

Outlook on Personal Financial Situation

- 57% Stay the Same
- 25% Improve
- 18% Get Worse
U.S. LGBTQ adults age 45+ have varying levels of confidence about having enough money to live comfortably throughout their retirement years.

Overall, how confident are you that you will have enough money to live comfortably throughout your retirement years? Please use a 1 to 10 scale, where 1 means you are not confident at all and 10 means you are extremely confident. (n=530)

Confidence in Retirement Money Lasting

- 25% More Confident Ratings
- 26% Less Confident Ratings
- 47% Neutral Ratings
- Ratings of 1-3
- Ratings of 4-7
- Ratings of 8-10
- Don't know/ refused
83% of U.S. LGBTQ adults age 45+ are currently relying on (or plan to rely on) Social Security as a source of income as they get older. Just over half (52%) will rely on savings and 401(k) programs.
Most U.S. LGBTQ adults age 45+ are most interested in having flexible work arrangements (57%) and keeping up with technology to maintain job skills (52%).

Self Questions

Issues That Impact U.S. LGBTQ Adults Age 45 and Older
Being able to get around independently is extremely important or very important to most (92%) U.S. LGBTQ adults age 45+. Having alternatives to nursing home care is important to 88% of participants.

For the following list of issues, please indicate how important each is to you, personally. (Percent ‘extremely important’ or ‘very important’) (n=530)
When you think of the potential of moving into an assisted living situation for older Americans, such as an assisted living apartment or a long-term care facility, how concerned are you that you might face LGBTQ-specific discrimination because of your sexual orientation or gender identity? Please use a 1 to 10 scale, where 1 means you are not concerned at all and 10 means you are extremely concerned. (n=530)

Most (56%) of U.S. LGBTQ adults age 45+ are concerned about facing LGBTQ-specific discrimination if they need to live in a long-term care or assisted living facility.
Of the concerns listed, COVID-19 and toxic political discourse are the issues affecting U.S. LGBTQ adults age 45+ in a negative way.

Issues Affecting Well-Being in a Negative Way

- The coronavirus / COVID-19: 71%
- The toxic political discourse: 63%
- Climate change and its impact on future generations: 47%
- Affording the healthcare you need: 41%
- Human rights abuses: 36%
- Excessive use of police force: 33%
- Discrimination due to race: 30%
- Discrimination due to age: 29%
- Mass shootings: 29%
- Families separated at the border: 26%
- Natural disasters: 19%
- News about rising suicide rates: 15%
- The opioid epidemic: 10%
- Other: 4%
- None of the above: 9%

Have any of the following affected your wellbeing in a negative way? Please select all that apply. (n=530)
Sexual orientation discrimination negatively affects 38% of U.S. LGBTQ adults age 45+.
61% of U.S. LGBTQ adults age 45+ feel isolated from others at least some of the time; 56% say they lack companionship at least some of the time.
More than half (57%) of U.S. LGBTQ adults age 45+ are extremely concerned or very concerned about being able to afford to remain in their home as they age.

**Concerns of U.S. LGBTQ Adults Age 45+**

*Percent Indicating Extremely Concerned or Very Concerned*

- Being able to afford to remain in your home as you age: 57%
- Being about to get around your community: 55%
- Being connected with others in your community: 43%
How big a problem would you say racism is in our society today? (n=530)

‘Do not know’ was a response option and received less than 1%.

82% of U.S. LGBTQ adults age 45+ believe that racism is a big problem in our society today.

Racism as a Problem in Our Society Today

- A big problem: 82%
- Somewhat of a problem: 13%
- A small problem: 13%
- Not a problem: 13%
43% of U.S. LGBTQ adults age 45+ reported that they have contact with family, friends, or neighbors once a week or less (other than the people they live with).
The vast majority of U.S. LGBTQ adults age 45+ reported that they have access to high-speed Internet services.

Other than a data plan on your cell phone, do you have high-speed Internet service at home such as cable Internet, DSL, FIOS, or satellite Internet service?

- Yes: 95%
- No: 5%
- Don’t know: 1%

Over the past few months, would you say you have had access to internet services that were [ITEM]?

- Available when needed: 93%
- Fast enough: 84%
- Affordable: 80%

Both questions (n=530)
Only 67% of U.S. LGBTQ adults age 45+ indicate that they live in communities that are at least somewhat supportive of the LGBTQ community.

Living in LGBTQ Supportive Communities

- Very supportive: 38%
- Somewhat supportive: 28%
- Neutral: 15%
- Somewhat unsupportive: 8%
- Very unsupportive: 5%
- Not sure: 6%

How supportive of its local LGBTQ community is the city or town in which you live? (n=530)
Most LGBTQ participants in this study are fully or mostly out to family, friends, and coworkers. For these participants age 45+, only 10% came out before age 17, but 43% were out by age 24, and 69% by age 34.

**Level of Being “Out”**

- Fully out to all family, friends and coworkers: 64%
- Mostly out to family, friends and coworkers: 18%
- Out to some people in my life, but not everyone: 13%
- I am out to only a small number of people or not out: 5%
A majority (55%) of U.S. LGBTQ adults age 45+ want to stay in their own home during their retirement years. A good number also want to explore LGBTQ-specific living environments.

### Ideal Living Environments During Retirement

- Stay in my current home or apartment: 55%
- Own a home during my retirement years: 46%
- Live in a LGBTQ-friendly assisted living community: 36%
- Live in a place with lower cost of living: 36%
- Resort community known to be LGBTQ-friendly: 35%
- Downsize to a smaller home or apartment: 29%
- With friends/roommates to share costs and tasks: 19%
- Rent a home during my retirement years: 10%
- Live with my children, siblings, or other relatives: 7%
- None of the above: 1%

Let’s think about your retirement years. How would you describe your ideal environment for your retirement? Please mark all that are both ideal and realistic for you. (n=530)
METHODOLOGY

AARP engaged Community Marketing & Insights (CMI) to conduct a national quantitative research study among the LGBTQ community age 45 and older. Topics included healthcare, the economy, financial issues, independent living, long-term care, caregiving, and retirement issues.

Online survey invitations were sent to a random sample of Community Marketing & Insights’ LGBTQ research panel age 45 or over. A total of 530 people completed the survey.

CMI’s research panel was developed over a 25-year period through partnerships with over 300 LGBTQ media, events, organizations, and social media. The panel is only used for research purposes; never marketing. Importantly, the panel mostly includes “out” LGBTQ community members who interact with LGBTQ media and organizations. The research most likely underrepresents older LGBTQ Americans who are more “closeted” about their sexual orientation or gender identity.

Because the survey was longer than typically fielded for CMI research (about 15 minutes), participants were offered a gift card incentive to complete the survey.

The survey was launched on December 5, 2020, and closed on December 16, 2020.

Percentages of some questions may exceed 100% due to rounding or the use of multiple response question formats.

Due to an oversample of transgender participants, results were weighted 46% gay and bisexual men, 46% lesbian and bisexual women, and 8% transgender and non-binary community members.
ABOUT AARP

AARP is the nation’s largest nonprofit, nonpartisan organization dedicated to empowering Americans 50 and older to choose how they live as they age. With nearly 38 million members and offices in every state, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands, AARP works to strengthen communities and advocate for what matters most to families with a focus on health security, financial stability and personal fulfillment. AARP also works for individuals in the marketplace by sparking new solutions and allowing carefully chosen, high-quality products and services to carry the AARP name. As a trusted source for news and information, AARP produces the nation's largest circulation publications, AARP The Magazine and AARP Bulletin. To learn more, visit www.aarp.org or follow @AARP and @AARPadvocates on social media.
