Members’ top concerns align with key AARP benefits/services and are focused around health and money.

Top concerns for AARP Members

- Having Social Security in the future: 81%
- Having Medicare in the future: 78%
- Staying mentally sharp: 78%
- Protecting against consumer fraud/ID theft: 77%
- Living a healthy lifestyle: 72%

Differences Among Subgroups

Top concerns are generally consistent across age and multicultural groups, however...

- **Retirement issues** including ensuring the solvency and security of retirement plans and **having enough income or savings to retire** rank higher as concerns for younger Members.

- **Protecting themselves against unfair/deceptive financial practices** ranks higher as a concern for Black, Hispanic, and Asian Members.
