Key Findings

AARP members in the Village of Great Neck Plaza say community features that improve outdoor spaces and public buildings, job opportunities, housing, and availability of community information are needed to make Great Neck a place where people can successfully age.

A livable community provides resources that allow residents to age in place, and fosters residents' engagement in their community's civic, economic, and social life. The World Health Organization (WHO) has developed eight domains that help influence the health and quality of life of older adults: housing, outdoor spaces and buildings, transportation, community support and health services, social participation, respect and social inclusion, civic participation and employment, and communication and information. The AARP New York State Office commissioned this livable communities survey of AARP members age 50 and older in the Village of Great Neck Plaza, New York to better understand the needs of older adults with regards to being able to age in place, and to conduct a community needs gap analysis to identify and prioritize areas of focus. This survey finds that:

- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza have lived in their community for a long time and are likely to remain there as they get older.**
 - ✓ 57% have lived in their community for at least 25 years, 21% have lived there between 15 and 24 years, and another 16% have lived there between 5 and 14 years.
 - ✓ 50% say it is extremely or very important to stay in their community, and 90% say it is extremely or very important for them to stay in their home as they age.
 - ✓ 62% say they are not very or not at all likely to move outside of their community when they retire and stop working completely.

- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza own their homes and some say they need to make modifications to enable them to age in place.**
 - ✓ 79% own their residence and 42% live in a single family home.
 - ✓ The top home modifications Great Neck members would need to make so they can age in place are installing a medical emergency response system that notifies others in case of emergency (35%) and installing grab bars, handrails, high toilet seats or non slip tile (32%).
 - ✓ In line with needing to make home modifications, the most important housing issues are having well-maintained homes and properties (78%), affordable home repair contractors (77%), and affordable home prices for adults of varying income levels (60%).

- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza say it is important to have outdoor spaces and buildings in their community that allow access for people of different physical abilities.**
 - ✓ 86% say it is important to have sidewalks that are in good condition and accessible for assistive mobility devices.
 - ✓ 84% say it is extremely or very important to have well-maintained public buildings and facilities that are accessible to people of different physical abilities.

- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza mostly drive themselves to get around their community, and many believe it is important to have well-designed, safe streets that support all users.**
 - ✓ 92% drive, 64% walk, 38% use public transportation, and 35% take a taxi to get around their community.
 - ✓ Most believe that it is extremely or very important to have well-maintained streets (97%), public parking lots, spaces and areas to park (92%), well-lit and safe streets for all users (91%), and affordable public parking (91%).

- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza want to stay healthy and therefore believe having good community health care facilities, services, and providers is important.**
 - ✓ 95% say it is extremely or very important to have well-maintained hospitals and health care facilities in their community.
 - ✓ Over four in five say having affordable home health care providers (87%), conveniently located emergency care centers (86%), and conveniently located health and social services (86%) in their community are important.
- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza want to have social activities within their community.**
 - ✓ 83% say they interact with friends and neighbors in their community several times a week or more.
 - ✓ 78% say it is extremely or very important to have activities that are affordable for all residents, while 74% say having activities that are accurately and widely publicized is important.
 - ✓ 72% say having activities that offer senior discounts is important, while 71% say it is important to have a variety of cultural activities available in their community.
- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza want to have a variety of volunteer opportunities within their community.**
 - ✓ 70% say it is extremely or very important to have transportation to and from volunteer activities for those residents who need it, while 65% say having opportunities for older adults to be community decision makers is important.
 - ✓ 61% say having a range of volunteer activities to choose from is important and another 61% say it is important to have an easy to navigate website that shows available local volunteer opportunities.
- ❖ **Many AARP members age 50-plus in the Village of Great Neck Plaza want to work for as long as possible and believe it is important to have community supports that will enable them to do so.**
 - ✓ 77% of employed members plan to put off full retirement and keep working for as long as possible.
 - ✓ 65% believe that having jobs that are adapted to meet the needs of people with disabilities in their community is extremely or very important, while over half say it is important to have job training opportunities (56%) as well as a range of flexible job opportunities for older adults (53%) in their community.
- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza would turn to family, friends, or neighbors for community information on older adult services.**
 - ✓ 89% say they would turn to family, friends, or neighbors, while 74% would contact local senior centers.
 - ✓ 70% believe it is extremely or very important to have free access to computers and the Internet in places like the library, senior centers or government buildings in their community.
 - ✓ 68% say it is important to have community information available in one central source.
- ❖ **AARP members age 50-plus in the Village of Great Neck Plaza report their top community needs that is the gap between what is important and what is present in four key areas: outdoor spaces and buildings, job opportunities, housing and community information.**
 - ✓ Overall across these four areas, the top gaps identified in outdoor spaces and buildings are separate pathways for bicyclists and pedestrians, neighborhood watch programs, and well-maintained public restrooms that are accessible to people with different physical disabilities.
 - ✓ All three items asked about in the job opportunities domain appeared in the top overall gaps: a range of flexible job opportunities for older adults, job opportunities for older adults, and jobs that are adapted to meet the needs of people with disabilities.
 - ✓ The top gaps in housing are affordable home prices for adults of varying income levels and a home repair service for low-income and older adults.
 - ✓ The top gaps in community information are clearly displayed and printed information and community information that is delivered in person.

Detailed Findings

Community

AARP members age 50-plus in the Village of Great Neck Plaza are long-time residents of their community and are unlikely to move into a different home within their community or leave their community altogether.

AARP members age 50-plus in the Village of Great Neck Plaza have deep roots in their community. Over half (57%) have lived in their community for at least 25 years. One in five (21%) has lived in their community between 15 and 24 years, and another one in six (16%) has lived in their community between 5 and 14 years.

Length of Time AARP Members in the Village of Great Neck Plaza Have Lived in Their Community
(n=227)

Most 50-plus AARP members in the Village of Great Neck Plaza are unlikely to move into a different home within their community or move outside their community when they retire and stop working. Over two-thirds (68%) say they are not very or not at all likely to move to a different home within their community, and another one in eight (13%) says they are only somewhat likely to do this. Nearly two-thirds (62%) say they are not very or not at all likely to move outside of their community, and another one in seven (14%) says they are only somewhat likely to do so.

Likelihood of Moving to a Different Home in the Village of Great Neck Plaza in Retirement Years
(n=227)

Likelihood of Moving to a Different Home outside of the Village of Great Neck Plaza in Retirement Years* (n=227)

*Percentages may not add up to 100 due to rounding.

AARP members age 50-plus in the Village of Great Neck Plaza say the top factors that would impact their decision to move out of the area are to find a home that will help them live independently as they age or a home that meets their size needs.

If 50-plus AARP members in the Village of Great Neck Plaza were to consider moving when they retire and do not work, over two in five (42%) say they would move to find a home that would help them live independently as they age. About four in ten would look for for a different size home that would better meet their needs (39%) or an area with a lower cost of living (38%). About a third says that they would move because maintaining their current home would be too expensive (34%) or to be closer to family (33%). Three in ten say that they would want to live in a different climate (30%). Fewer say they would move because they want to find an area that has better public transportation (16%), is safer (14%), or has better health care facilities (13%).

**Factors that Impact the Decision of AARP Members in the Village of Great Neck Plaza to Move*
(n=227)**

*Percentages may not add up to 100 due to rounding. *Percentages less than 5 percent are not shown.

AARP members age 50-plus in the Village of Great Neck Plaza say it is important for them to remain in their home and community, and they believe their community is a good place for older people to live.

AARP members in the Village of Great Neck Plaza want to continue to live in their community *and* their home for as long as they can. Half (50%) say it is extremely or very important to stay in their community as they age. The large majority (90%) says it is extremely or very important to stay in their own home as they age.

Nearly all say (96%) say their community is an excellent, very good, or good place for older people to live. This high rating of their community is likely influenced by the fact that many have lived there for at least 25 years and desire to remain there as they get older.

Rating of Great Neck as a Place for Older People to Live (n=227)

Housing

Most 50-plus AARP members in the Village of Great Neck Plaza own their own residence, and some say they will need to make home modifications to enable them to stay there as they age.

Nearly eight in ten (79%) own their residence while one in six (16%) rents. Over four in ten live in a single family home (42%). Over one-third lives in a condominium (35%) and about one in five lives in an apartment (22%). Very few live in some other type of dwelling (1%).

Own or Rent Primary Residence
(n=227)

Type of Home is Primary Residence*
(n=227)

*Percentages may not add up to 100 due to rounding.

The top home modification AARP members in the Village of Great Neck Plaza say they will need to make in order to stay in their residence as they age is installing a medical emergency response system that notifies others in case of emergency (35%). About one-third says they will make bathroom modifications such as installing grab bars, handrails, high toilet seats or non-slip tile (32%). Over one in seven says they will need to add things like ramps or chairlifts for easier access into and within their home or make structural changes like widening doorways (15%) or improve lighting (15%). About one in eight says they need to put a bathroom, bedroom or kitchen on the first floor (13%) or install a better cooling or heating system (12%).

Types of Home Modifications AARP Members in the Village of Great Neck Plaza Need to Make to Enable Their Stay as They Age*
(n=227)

*Graph shows respondents who checked "yes" under each type of modification.

Well-maintained homes and properties and trustworthy home repair contractors are the most important housing features to 50-plus AARP members in the Village of Great Neck Plaza.

Most 50-plus AARP members in the Village of Great Neck Plaza are home owners and say they would prefer to age in place, so it is not surprising that the top housing issues of importance for these members relate to home repairs that could promote being able to stay in the home. The large majority says well-maintained homes and properties (78%) and trustworthy, affordable home repair contractors (77%) are extremely or very important to them. About six and ten say it is extremely or very important to have affordable home prices for everyone (60%), seasonal maintenance services (59%), and home repair services for low-income and older residents (59%). Just over half say it is extremely or very important to have homes that are equipped with things like a no step entrance, wider doorways, grab bars and first floor bedrooms and bathrooms (52%).

Housing Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

Percentages may not add up to 100 due to rounding. *Percentages less than 5 percent are not shown.

Outdoor Spaces and Buildings

AARP members age 50-plus in the Village of Great Neck Plaza say outdoor spaces and building features that ensure accessibility for people of different physical abilities are of high importance.

When thinking about outdoor spaces and public buildings within their community, the vast majority (86%) of AARP members in the Village of Great Neck Plaza believes it is extremely or very important to have sidewalks in good condition that are accessible for wheelchairs or other assistive mobility devices. Another eight in ten say well-maintained public buildings and facilities that are accessible to people of different physical abilities (84%) is extremely or very important. About three quarters say having well-maintained and safe parks that are within walking distance from their home (77%) is extremely or very important. About seven and ten say well-maintained public restrooms that are accessible to people of different physical abilities (71%) is extremely or very important. About three in five say having separate pathways for bicyclists and pedestrians (64%) and neighborhood watch programs (59%) in their community are important.

**Outdoor Spaces and Building Features of Importance to
AARP Members in the Village of Great Neck Plaza*
(n=227)**

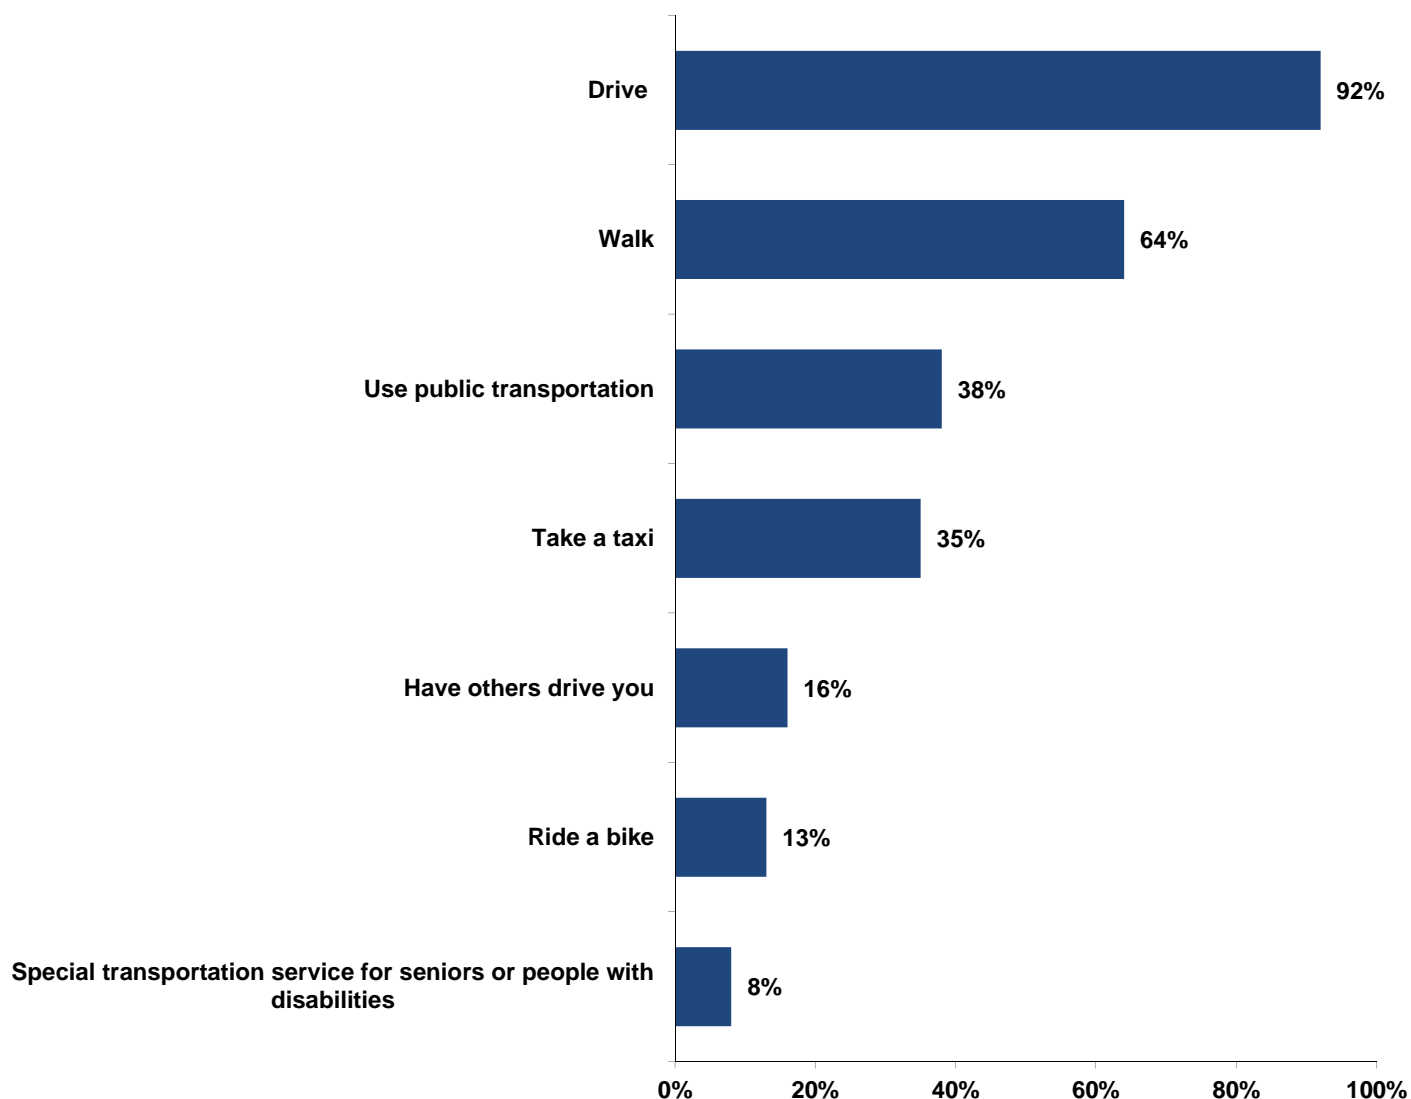

*Percentages may not add up to 100 due to rounding. *Percentages less than 5 percent are not shown.

Transportation and Streets

AARP members age 50-plus in the Village of Great Neck Plaza drive themselves to get to where they want to go and many also walk.

More than nine in ten (92%) AARP members age 50-plus in the Village of Great Neck Plaza drive themselves in order to do things like shopping, visiting the doctor, running errands, or getting to other places in their communities, while over three in five (64%) walk. Over a third uses public transportation (38%) or takes a taxi (35%). Far fewer get a ride from others (16%), ride a bike (13%), or use a special transportation service for seniors or persons with disabilities (8%).

Transportation Modes of AARP Members in the Village of Great Neck Plaza*
(n=227)

*Graph shows respondents who checked "yes" under each mode of transportation.

AARP members age 50-plus in the Village of Great Neck Plaza believe that having well-maintained, safe streets with public parking lots, spaces and areas to park in their community is important.

When thinking about transportation and streets within their community, the vast majority of 50-plus AARP members in the Village of Great Neck Plaza says it is extremely or very important to have well-maintained streets (97%), public parking lots and spaces (92%), affordable public parking (91%), well-lit, safe streets and intersections for all users (91%), and easy to read traffic signs (90%). AARP 50-plus members in Great Neck also place high importance on features that relate to public transportation. More than four in five say it is important to have public transportation that is reliable (86%), safe (84%), well-maintained (84%), affordable (84%), and accessible (84%). The same proportion says it is important to have enforced speed limits (84%) in their community. More than seven in ten place high importance on having a special transportation services for people with disabilities and older adults (80%) and audio/visual pedestrian crossings (72%), while nearly two-thirds say having driver education and refresher courses (65%) in their community is important.

Transportation and Street Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

*Percentages may not add up to 100 due to rounding. Percentages less than 5 percent are not shown.

Health and Wellness

AARP members age 50-plus in the Village of Great Neck Plaza believe they are in excellent, very good or good health, and they exercise at least once a week.

Most (94%) say they are in excellent, very good, or good health, while only five percent say their health is fair.

AARP Members in the Village of Great Neck Plaza Rating of Their Health*
(n=227)

*Percentages may not add up to 100 due to rounding.

The fact that most 50-plus AARP members in the Village of Great Neck Plaza perceive themselves as being healthy also is reflective of their exercise habits. About seven in ten (72%) say they exercise every day or several times a week, and one in ten (12%) says they exercise about once a week.

Frequency that AARP Members in the Village of Great Neck Plaza Exercise
(n=227)

Given the frequency of exercising it is not surprising that nearly all (96%) 50-plus AARP members in the Village of Great Neck Plaza say it is important to them to remain physically active for as long as possible.

Importance of Remaining Physically Active Among AARP Members in the Village of Great Neck Plaza*
(n=227)

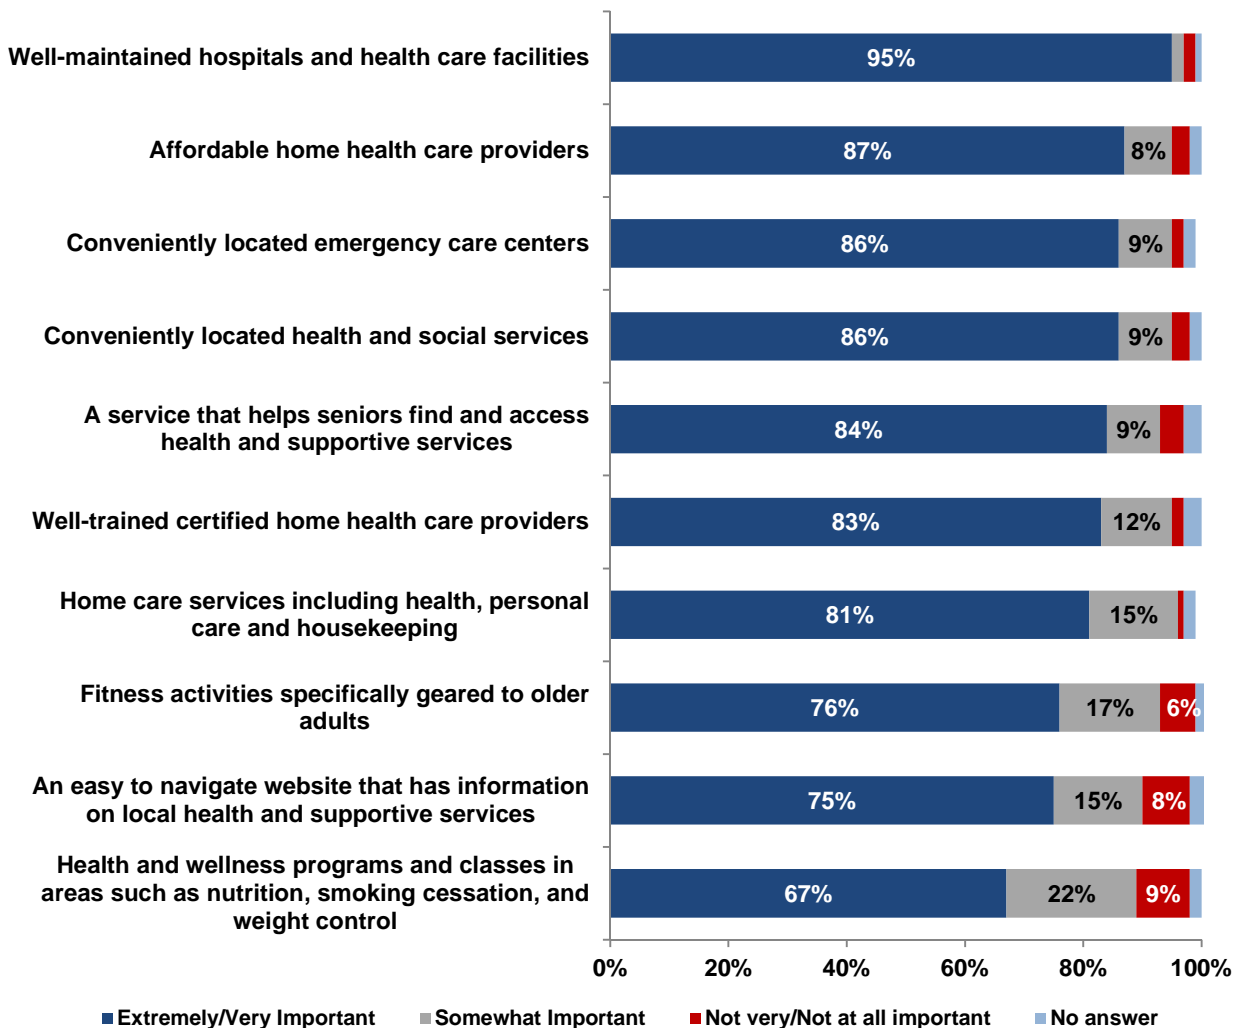

*Percentages may not add up to 100 due to rounding.

AARP members age 50-plus in the Village of Great Neck Plaza believe having good community health care facilities, services, and providers are important to successful aging in place.

Over nine in ten (95%) AARP members in the Village of Great Neck Plaza say it is extremely or very important to have well-maintained hospitals and health care facilities in their community. Nearly nine in ten believe it is important to have affordable home health care providers (87%), conveniently located emergency care centers (86%), and conveniently located health and social services (86%). Over four in five say having a service that helps seniors access services (84%), well-trained certified home health care providers (83%), and home care services (81%) are important to have in their community. At least three-quarters say having fitness activities geared toward older adults (76%) and an easy to navigate health and social services website (75%) are important to have in their community. Two-thirds (67%) say it is important to have health and wellness programs within their community.

Health and Wellness Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

*Percentages may not add up to 100 due to rounding. Numbers indicating percentages less than 5 percent are not shown.

Social Participation, Inclusion and Education Opportunities

AARP members age 50-plus in the Village of Great Neck Plaza interact regularly with others in their community, and some seek out continuing education opportunities.

Over four in five (83%) say they interact with friends and neighbors in their community several times a week or more. Fewer than one in ten (6%) interacts with others in their community once a week or interacts with people in their community less than weekly (9%).

Frequency that AARP Members in the Village of Great Neck Plaza Interact with People in Their Community (n=227)

When seeking out continuing education opportunities in their community about one-third says they do not do this. Two in five say they go to community, adult or senior centers (40%). One in five looks to the Department of Parks and Recreation (20%). About one in ten looks to universities or community colleges (10%), seeks out online programs (10%), or goes to local organizations (10%). Fewer than one in ten looks to their faith community (9%), continuing education opportunities through their workplace offerings (8%), or goes to other sources (8%).

Places or Sources AARP Members in the Village of Great Neck Plaza Go to for Continuing Education or Self-Improvement Classes* (n=227)

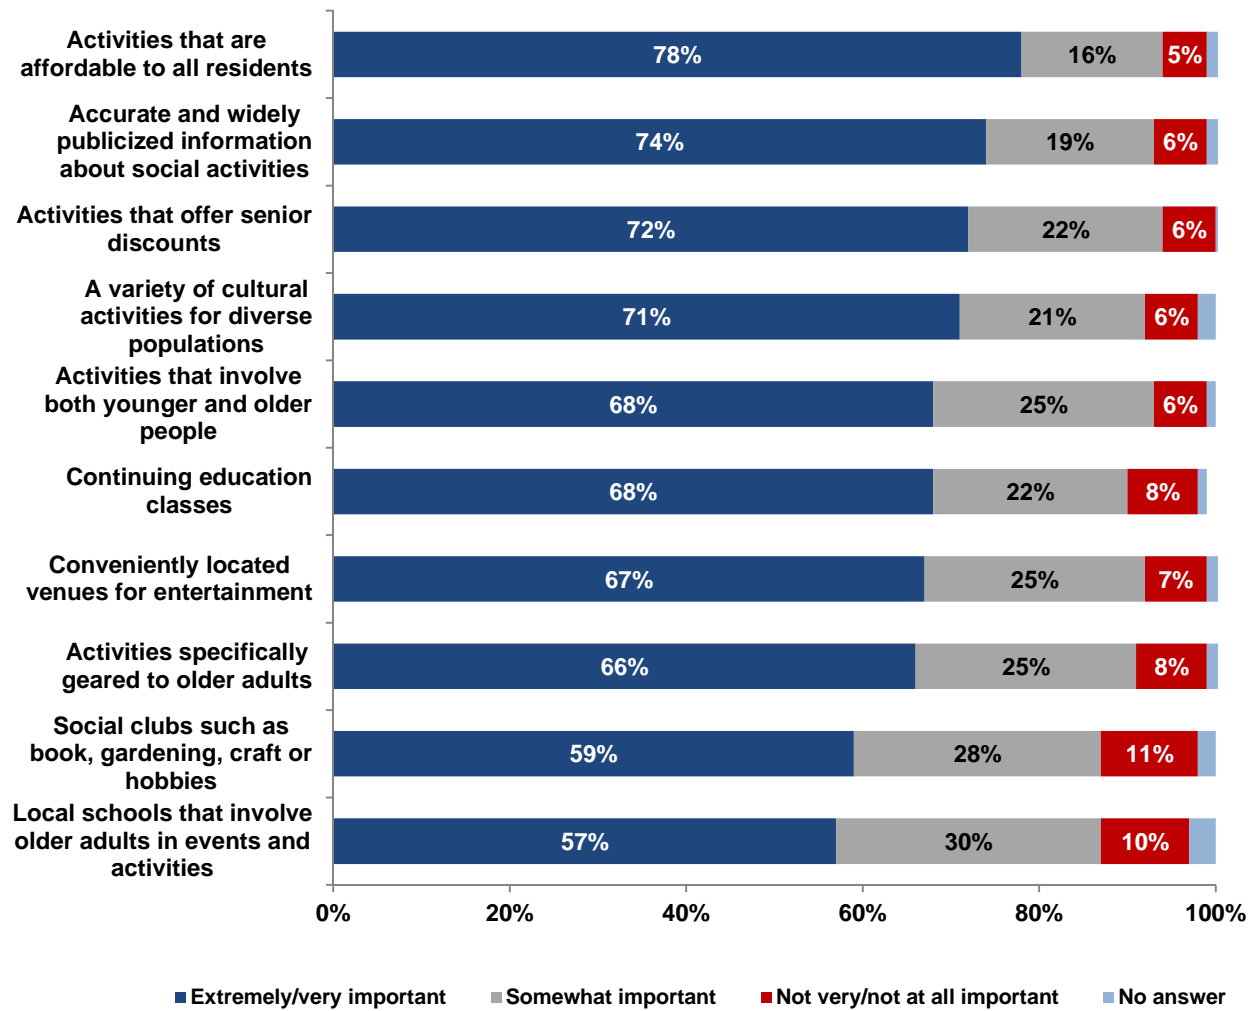

*Graph shows respondents who checked "yes" under each place/source.

AARP members age 50-plus in the Village of Great Neck Plaza believe it is important to have activities that are affordable for all residents and are accurately and widely publicized.

When it comes to social participation, 50-plus AARP members in the Village of Great Neck Plaza want to have activities that are affordable, geared to diverse audiences, and are easy to find out about. Nearly four in five (78%) say it is extremely or very important to have activities in their community that are affordable for all residents. About seven in ten say having activities that are accurately and widely publicized (74%), offer senior discounts (72%), and having a variety of cultural activities (71%) are important to have in their community. At least two-thirds say it is important to have activities that involve younger and older people (68%), continuing education classes (68%), conveniently located entertainment venues (67%), and activities that are geared specifically to older adults (66%) in their community. Almost three in five say having social clubs (59%) and local schools that involve older adults in activities (57%) are extremely or very important community features.

Social Participation Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

*Percentages may not add up to 100 due to rounding. Percentages less than 5 percent are not shown.

Volunteering and Civic Engagement

AARP members age 50-plus in the Village of Great Neck Plaza want to live in communities that have a variety of volunteer opportunities and available transportation to get them to these volunteer activities.

When asked about civic engagement features, seven in ten (70%) say that it is extremely or very important to have transportation to and from volunteer activities for those residents who need it. Nearly two-thirds say having opportunities for older adults to be community decision makers (65%) is important in the community where they live. About three in five say having an easy to navigate website that shows opportunities for volunteering (61%), a range of volunteer activities to choose from (61%), and volunteer training opportunities (60%) are important community features.

Volunteer and Civic Engagement Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

*Percentages may not add up to 100 due to rounding. Percentages less than 5 percent are not shown.

Job Opportunities

The majority of 50-plus AARP members in the Village of Great Neck Plaza plans to work for as long as possible and want to have community supports to help them remain employed.

Over two in five (46%) AARP members age 50-plus in the Village of Great Neck Plaza are employed either full or part-time. Over three-quarters of these members (77%) say they are extremely or very likely to put off full retirement and keep working as long as possible.

Likelihood of Working AARP Members in the Village of Great Neck Plaza to Put Off Full Retirement to Work as Long as Possible (n=106, employed respondents)

Given that a large proportion of 50-plus AARP members in the Village of Great Neck Plaza plan to work as long as possible, it is not surprising that they place high importance on having community supports in place for working residents. Two-thirds believe that having jobs that are adapted to meet the needs of people with disabilities in their community (65%) is extremely or very important. More than half believe it is important to have job training opportunities (56%) and a range of flexible job opportunities for older adults in their community (53%).

Job Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

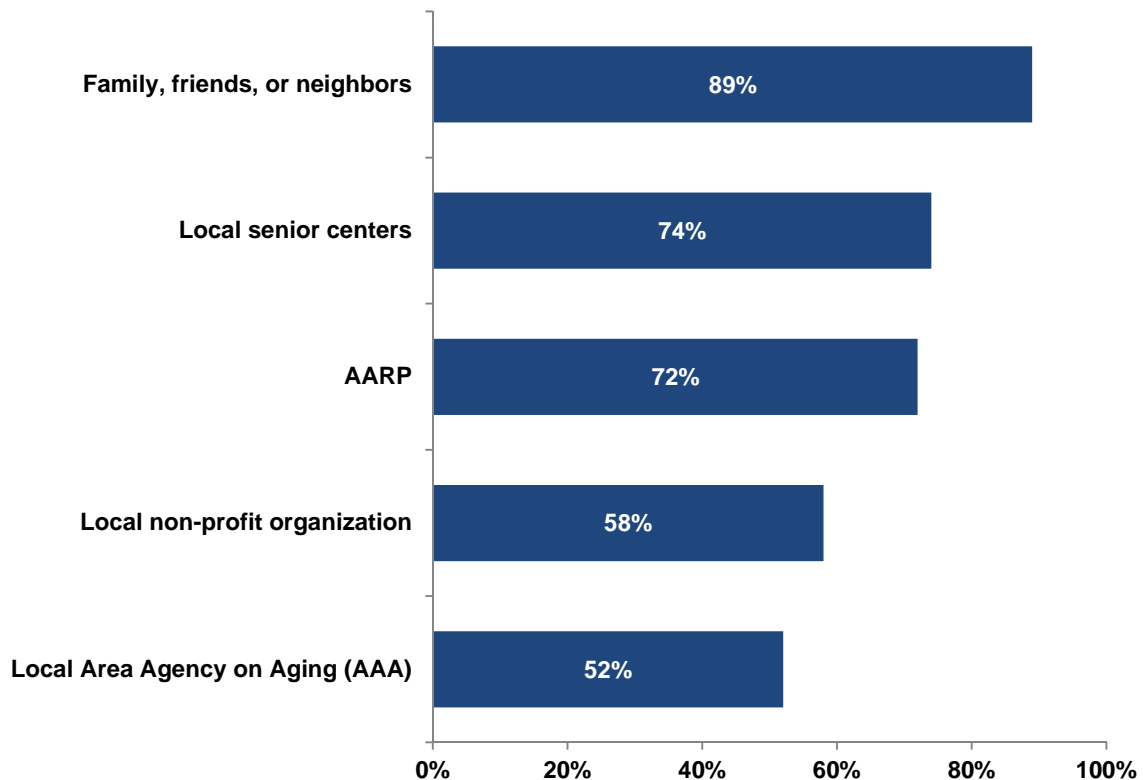

*Percentages may not add up to 100 due to rounding. Percentages less than 5 percent are not shown.

Community Information

AARP members age 50-plus in the Village of Great Neck Plaza say they would turn most to family, friends, or neighbors for information on services for older adults.

Almost nine in ten (89%) say they would turn to family, friends, or neighbors for information about services for older adults such as caregiving, home delivered meals, home repair, medical transport, or social activities. About three-fourths would turn to senior centers (74%), or AARP (72%) for this type of information. Over half would look to local non-profit organizations (58%) or their local Area Agency on Aging (AAA) (52%) for information.

**Sources AARP Members in the Village of Great Neck Plaza Would Turn to For Information on Older Adult Services*
(n=227)**

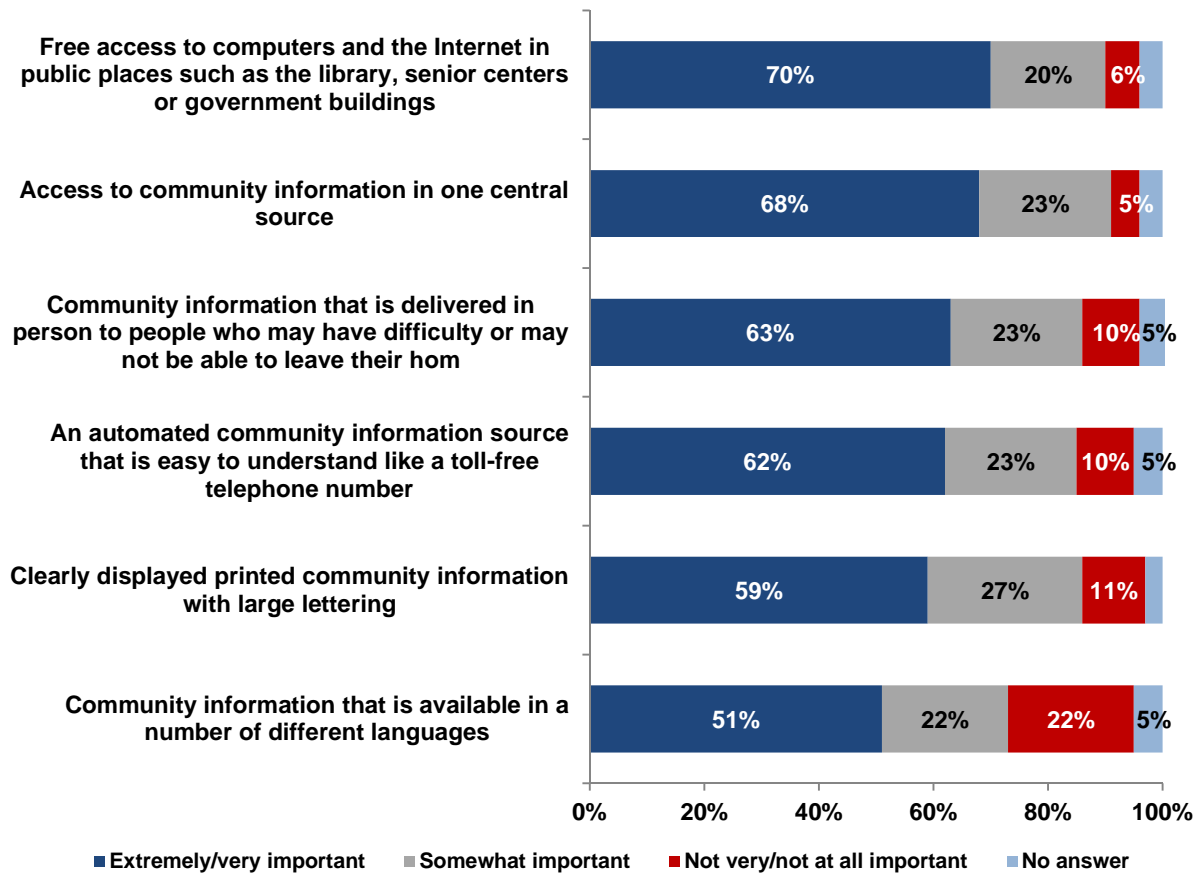

*Graph shows respondents who checked "yes" under each information source.

AARP members age 50-plus in the Village of Great Neck Plaza say having free access to the Internet and community information in one centrally located source is important to have in their community.

About seven in ten say having free access to computers and the Internet in places like the library, senior centers or government buildings (70%) and having community information in one centrally located source (68%) are extremely or very important community features. About three in five believe it is important to deliver community information in person to residents who may not be able to leave their home (63%). A similar proportion believe it is important to have an automated source for community information that is easy to understand (62%) as well as printed information that is clearly displayed with large lettering (59%). Just over half say having community information in several different languages is important (51%).

Community Information Features of Importance to AARP Members in the Village of Great Neck Plaza* (n=227)

*Percentages may not add up to 100 due to rounding. Percentages less than 5 percent are not shown.

Gaps in Community Features and Services

In order to identify the needs of 50-plus AARP members in the Village of Great Neck Plaza survey respondents were asked how important the prior community features and services were to them. Then they were asked if these features and services existed in their community. These questions were then paired together to identify community needs or “gaps.” Pairing these questions allows us to look at “gaps” between the importance of a feature or service and its presence in the community. To compare these questions, respondents who said a feature or service is extremely, very, or somewhat important were aggregated and then compared to respondents who said the feature or service was present in their community. Survey respondents who said they were not sure if a feature or service was in their community were removed from this analysis.

The top community needs as defined by importance vs. presence gaps are concentrated in four key areas: outdoor spaces and buildings, job opportunities, housing, and community information.

If we examine individual items across all eight domains, the top needs, or gaps between importance and presence are in: outdoor spaces and buildings, job opportunities, housing, and community information domains with outdoor spaces and job opportunities taking three slots each among the top gaps. These are followed by two items for the housing domain as well as two in the community information domain.

The largest gaps or needs for 50-plus AARP members in Great Neck are having separate pathways for bicyclists and pedestrians, a range of flexible job opportunities for older adults as well as job training opportunities for older adults who want to learn new job skills within their job or get training in a different field of work.

The Top Gaps in Which Features are Important Versus Which Ones Exist by Domain

Features in the Community (n=227)	Gap	Extremely, Very, or Somewhat Important	Yes, Characteristic or Service Exists	Domain
Separate pathways for bicyclists and pedestrians	-66.2%	87.8%	21.6%	Outdoor Spaces and Buildings
A range of flexible job opportunities for older adults	-61.9%	82.2%	20.4%	Job Opportunities
Job training opportunities for older adults who want to learn new job skills within their job or get training in a different field of work	-57.8%	82.1%	24.3%	Job Opportunities

Caregiving

Many 50-plus AARP members in the Village of Great Neck Plaza are caregivers or have been caregivers in the past.

An informal caregiver can be anyone who provides unpaid care for a relative, friend, spouse, companion, or partner 18 years or older who is ill, frail, elderly, or has a physical or mental disability. Unpaid care may include assisting with personal needs, household chores, meals, shopping or transportation, financial or medical management, arranging for outside services, or a variety of other tasks. The care recipient may live with the caregiver or somewhere else.

One in five says they are *currently* (11%) providing care for a relative, friend, spouse, companion, or partner 18 years or older who is ill, frail, elderly, or has a physical or mental disability or *has provided* (7%) this type of care for someone in the past. On the other hand, over three-fourths (77%) say they are not providing care for anyone or have not provided care in the past.

Providing/Provided Unpaid Caregiving Services Among AARP Members in the Village of Great Neck Plaza (n=227)

More than seven in ten 50-plus AARP members in the Village of Great Neck Plaza provide or have provided unpaid caregiving services for their immediate family members.

Of those who identify themselves as current or former caregivers, most (74%) provide care to an immediate family member. Over two in five provide care or have cared for their spouse or partner (44%), while a quarter provides or has provided care for their parents (24%). About one in eight provides care or has provided care for another family member (12%). Fewer provide or have provided care for a friend or neighbor (5%), their son or daughter (3%) or a sibling (2%).

Further, over half (54%) of 50-plus AARP members in the Village of Great Neck Plaza say the person they are providing or have provided care for currently lives or lived with them.

Relationship of Care Recipient to Caregiver Among Caregivers in the Village of Great Neck Plaza* (n=41, current or former caregivers)

Relationship of Care Recipient to Caregiver Among Caregivers in the Village of Great Neck Plaza (n=41, current or former caregivers)

*Percentages may not add up to 100 due to rounding.

Many 50-plus AARP members in the Village of Great Neck Plaza have been caregivers for at least three years and spend or have spent more than twenty hours per week providing this care.

Almost half (49%) say they have been providing or provided care for at least three years, and of these caregivers, over a quarter (27%) has been providing or provided care for over 10 years. Another one in six (17%) has been providing care or has provided care for at least one year but less than five years, and about two in five (43%) have been providing or provided care for less than a year.

Four in ten (40%) spend or have spent over 20 hours per week on caregiving activities, and of these caregivers over one in five (23%) provides or has provided care for 40 hours per week or more. About one in six (16%) provides or has provided care for at least 10 but less than 20 hours per week, and over four in ten (45%) spend or have spent less than 10 hours per week on caregiving tasks.

Length of Time Great Neck Members Have Been Caregivers
(n=41, current or former caregivers)

Number of Hours Per Week Great Neck Members Spend Providing Caregiving Services
(n=41, current or former caregivers)

Many 50-plus AARP members in the Village of Great Neck Plaza have had to use their personal savings, make changes in their jobs, or modify their homes in order to provide caregiving for family and friends.

Just over two in five (42%) 50-plus AARP members in the Village of Great Neck Plaza say they have had to use their personal savings to provide care for family and friends. Three in ten (29%) had to change their work schedule or take time off and one in seven had to give up working entirely (14%). Three in ten (29%) had to make changes to their home, while about one in ten (9%) had to move into another home to better accommodate caregiving recipients.

Actions AARP Members in the Village of Great Neck Plaza Have Had to Take Due to Caregiving Responsibilities
(n=41, current or former caregivers)

*Graph shows respondents who checked "yes" under each action.

AARP members in the Village of Great Neck Plaza say the most helpful caregiver resources are getting help with finding medical information, providing transportation, finding information about available resources, and getting short breaks from caregiving tasks.

The most helpful types of caregiver support for 50-plus AARP members in the Village of Great Neck Plaza would be getting assistance with accurate medical information (68%) and providing transportation (67%). Other types of support these members would also find extremely or very helpful would be information on community caregiver resources (63%) and respite care (57%). Half say getting assistance with completing government forms and applications (50%), guidance and help in understanding medical bills (50%), and connecting with other caregivers through a caregiver support group (49%) would be extremely or very helpful caregiver resources. Over one-third believes spiritual support and guidance (34%) would be helpful.

Helpfulness of Caregiver Resources Among AARP Members in the Village of Great Neck Plaza (n=227)

*Percentages may not add up to 100 due to rounding. *Percentages less than 5 percent are not shown.

About three in five 50-plus AARP members in the Village of Great Neck Plaza are grandparents and would find information on fun things to do with grandchildren the most helpful grandparenting resource.

About three in five (59%) 50-plus AARP members in the Village of Great Neck Plaza have grandchildren, great grandchildren, or step grandchildren. Grandparents tend to be older and retired. About one in six of these grandparents helps with the day-to-day responsibilities of caring for their grandchildren (16%).

Grandparent Status of AARP Members in the Village of Great Neck Plaza* (n=227)

Help with Day-to-Day Responsibilities Of Caring for Grandchildren (n=134, grandparents)

*Percentages may not add up to 100 due to rounding.

The most helpful type of grandparenting resource for 50-plus AARP members in the Village of Great Neck Plaza would be information on fun things to do with grandchildren (57%). At least two in five would also find information on how to talk with grandchildren about issues in their lives (50%) and legal rights for grandparents (42%) extremely or very helpful. Nearly two in five would find information on support groups for people raising grandchildren (38%), financial resources for those raising grandchildren (38%), and connecting with grandchildren via social media (38%) extremely or very helpful. Nearly three in ten say it would be extremely or very helpful to have grandparenting referral services (29%) and information on grandparenting in a multicultural family (25%).

Helpfulness of Grandparenting Resources Among AARP Members in the Village of Great Neck Plaza (n=227)

*Percentages may not add up to 100 due to rounding.

Your Family

40. A caregiver can be anyone who provides unpaid care for a relative, friend, spouse, companion, or partner 18 years or older who is ill, frail, elderly, or has a physical or mental disability. Unpaid care may include assisting with personal needs, household chores, meals, shopping, transportation, financial or medical management, arranging for outside services, or a variety of other tasks. The person you provide care for may live with you or somewhere else.

Are you currently providing unpaid assistance, or have you provided unpaid assistance in the past two years, to care for a relative, friend, spouse, companion, or partner 18 years or older who is ill, frail, elderly, or has a physical or mental disability?

- 11% Yes, I am currently providing care for someone → **GO TO Question 41**
- 7% Yes, I have provided care for someone in the past 2 years → **GO TO Question 41**
- 77% No → **GO TO Question 46**
- 5% No Answer

41. Thinking about your most recent caregiving experience with a family member or friend, what is the care recipient's relationship to you? If you are a former caregiver, what was the care recipient's relationship to you? Weighted n = 41

- 44% Spouse or Partner
- 24% Mother or Father
- 0% Mother-in-law or Father-in-law
- 2% Sister or Brother
- 3% Daughter or Son
- 12% Other Family Member
- 5% Friend or Neighbor
- 10% No Answer

42. Still thinking about the person you most recently provided care for, does the care recipient live with you? If you are a former caregiver, did the person you provided care for live with you? Weighted n = 137

- 54% Yes
- 44% No
- 2% No Answer

43. How long have you been providing care for this person? If you are a former caregiver, how long did you provide care for this person? Weighted n = 41

- 14% Less than 1 month
- 9% 1 month but less than 3 months
- 3% 3 months but less than 5 months
- 2% 5 months but less than 7 months
- 2% 7 months but less than 10 months
- 13% 10 months but less than 1 year
- 7% 1 year but less than 3 years
- 10% 3 years but less than 5 years
- 3% 5 years but less than 7 years
- 9% 7 years but less than 10 years
- 2% 10 years but less than 12 years
- 25% 12 years or more
- 2% No Answer

44. Considering all types of care you provide for this person, how much time do you spend in an average week doing these things? If you are a former caregiver, how much time did you spend in an average week providing care? Weighted n = 41

- 20% Less than 5 hours a week
- 25% 5 hours but less than 10 hours a week
- 16% 10 hours but less than 20 hours a week
- 9% 20 hours but less than 30 hours a week
- 7% 30 hours but less than 40 hours a week
- 13% 40 hours but less than 60 hours a week
- 0% 60 hours but less than 80 hours a week
- 11% 80 hours or more a week
- 0% No Answer

45. As a current or former caregiver, have you had to take any of the following actions in order to provide care for someone? Weighted n = 41

	Yes	No	No Answer
a. Use your personal savings in order to help provide care	42%	52%	6%
b. Go into work early or late, or take time off to provide care.....	29%	50%	21%
c. Take a leave of absence from your job	2%	77%	21%
d. Make changes to your home for the care recipient	29%	53%	19%
e. Go from working full-time to part-time	2%	77%	21%
f. Give up working entirely	14%	66%	20%
g. Move into another home to accommodate the care recipient	9%	77%	14%

46. As a current or former caregiver OR someone who may provide care in the future, how helpful would the following types of support be to you?

	Extremely helpful	Very helpful	Somewhat helpful	Not very helpful	Not at all helpful	No Answer
a. Assistance with providing transportation	43%	25%	14%	2%	4%	12%
b. Assistance with finding accurate medical information	43%	26%	15%	2%	2%	13%
c. Connecting with other caregivers in similar situations through a caregiver support group	27%	22%	24%	6%	7%	14%
d. Guidance and help in understanding medical bills	26%	23%	17%	9%	9%	15%
e. Spiritual support and guidance	17%	17%	22%	15%	15%	14%
f. Information about available resources for caregivers in your community	32%	31%	15%	4%	4%	14%
g. Short breaks from your caregiving tasks.....	33%	24%	17%	5%	7%	15%
h. Assistance in completing government forms and applications	32%	18%	20%	8%	8%	14%

47. Do you have any grandchildren, including great grandchildren or step-grandchildren?

59% Yes → **GO TO Question 48**

38% No → **GO TO Question 49**

4% No Answer

48. Do you help with any of the day-to-day responsibilities of caring for any of your grandchildren, great grandchildren or step grandchildren? Weighted n = 134

16% Yes

79% No

5% No Answer

49. If you are or were to become a grandparent, how helpful would you find the following services or information?

	Extremely helpful	Very helpful	Somewhat helpful	Not very helpful	Not at all helpful	No Answer
a. Fun things to do with grandchildren of all ages.....	29%	28%	17%	8%	5%	13%
b. How to speak to grandchildren about issues in their lives.....	22%	29%	17%	12%	6%	14%
c. Legal rights of grandparents	16%	26%	19%	15%	8%	15%
d. Grandparenting in a multicultural family.....	10%	15%	19%	22%	19%	15%
e. Referral services for people raising grandchildren	14%	16%	18%	18%	18%	16%
f. Financial resources for people raising grandchildren	16%	22%	14%	17%	16%	15%
g. Support groups for people raising grandchildren	14%	24%	14%	16%	16%	15%
h. How to connect with grandchildren on social media sites like Facebook or Twitter	18%	20%	18%	15%	15%	15%

About You

D1. Are you male or female?

- 55% Male
- 45% Female
- No Answer

D2. What is your age as of your last birthday? [AGE IN YEARS]

- 15% 50 – 59 years
- 48% 60 – 74 years
- 38% 75 + years
- No Answer

D3. What is your current marital status?

- 51% Married
- 5% Not married, living with partner
- 0% Separated
- 15% Divorced
- 18% Widowed
- 11% Never married
- No Answer

D4. Are you or your spouse currently a member of AARP?

- 97% Yes
- 3% No
- 1% No Answer

D5. Besides you, do you have any of the following people living in your household?

	Yes	No	No Answer
a. Child/children under 18	2%	81%	17%
b. Child/children 18 or older.....	5%	81%	14%
c. Child/children away at college.....	5%	81%	14%
d. Adult relative or friend 18 or older.....	18%	73%	10%

D6. Do you have any kind of health care coverage, including employer-provided health insurance, private health insurance, or government plans such as Medicare or Medicaid?

97% Yes
3% No
- No Answer

D7. Does any disability, handicap, or chronic disease keep you and your spouse or partner from participating fully in work, school, housework, or other activities? [CHECK ONLY ONE]

15% Yes, myself
7% Yes, spouse or partner
1% Yes, both me and my spouse or partner
75% No
1% No Answer

D8. Are you of Hispanic, Spanish, Latino origin or descent?

2% Yes → **GO TO Question D9**
93% No → **GO TO Question D10**
5% No Answer

D9. If you are Hispanic or Latino, please indicate which one best represents the language (s) you speak at home. [CHECK ONLY ONE] Weighted n = 4

- Spanish only
- Spanish most of the time
- Spanish and English equally but prefer Spanish
19% Spanish and English equally and do not have a preference
62% Spanish and English equally but prefer English
- English most of the time
19% English only
- No Answer

D10. What is your race and/or ethnicity? [CHECK ALL THAT APPLY]

- 92% White or Caucasian
- 2% Black or African American
- American Indian or Alaska Native
- 2% Asian
- 1% Native Hawaiian or other Pacific Islander
- 1% Other: (Specify)
- 3% No Answer

D11. What is the highest level of education you have completed?

- 2% K-12th grade (no diploma)
- 6% High school graduate, GED or equivalent
- 8% Post-high school education/training (no degree)
- 6% 2-year college degree
- 16% 4-year college degree
- 8% Post-graduate study (no degree)
- 50% Graduate or professional degree(s)
- 4% No Answer

D12. Thinking about state elections for New York Governor and Legislators in the last five years, how often would you say you vote?

- 64% Always
- 22% Most of the time
- 5% About half of the time
- 5% Seldom
- 4% Never
- 2% No Answer

D13. Do you consider yourself to be a Democrat, a Republican, an Independent, or something else?

- 50% Democrat
- 10% Republican
- 26% Independent
- 9% Something else
- 6% No Answer

D14. In general, how often do you go online to access the Internet for things like sending or receiving email, getting news and information, paying bills or managing finances or buying products or services? This includes access from home, work, a mobile device (such as a smart phone), or someplace else.

- 55% Several times a day
- 15% About once a day
- 8% 3-6 days a week
- 4% 1-2 days a week
- 3% Once every few weeks
- 1% Once a month or less
- 11% Never go online
- 1% No Answer

D15. What was your annual household income before taxes in 2013?

- 1% Less than \$10,000
- 4% \$10,000 to \$19,999
- 6% \$20,000 to \$29,999
- 9% \$30,000 to \$49,999
- 15% \$50,000 to \$74,999
- 9% \$75,000 to \$99,999
- 16% \$100,000 to \$149,999
- 29% \$150,000 or more
- 12% No Answer

Thank you very much for completing this survey.

Your assistance in providing this information is very much appreciated.

Please return your completed survey by June 6, 2014

AARP State Research

601 E Street, NW

Washington, DC 20049

Methodology

The AARP New York State Office commissioned a mail survey on livable communities of 1,000 AARP members age 50-plus in the Village of Great Neck Plaza. The sample was drawn from AARP's membership database.

The survey was fielded from October 22nd through November 26th 2014 and exactly 227 useable surveys were returned by the cut-off date, for a response rate of 22.7 percent. Each sampled member was contacted about the survey four times receiving the following pieces of mail: pre-notification postcard, the survey itself, a reminder postcard, and a second copy of the survey. The survey has a margin of error of ± 6.5 percent. This means that if 95 out of 100 samples of this same size and population were given the same survey, the responses to the questions would fall within a range of plus or minus 6.5 percentage points of what would have been obtained if every AARP member age 50 years and older in the sampled area were asked the same questions. The sample was weighted by age and gender to reflect the actual distribution of AARP members age 50-plus in the Village of Great Neck Plaza.

Percentages may not add to 100 percent due to rounding, multiple answers permitted for some items and non-response. Percentages in the text may also differ slightly from the graphs due to rounding.

AARP is a nonprofit, nonpartisan organization, with a membership of nearly 38 million, that helps people turn their goals and dreams into real possibilities, strengthens communities and fights for the issues that matter most to families such as healthcare, employment and income security, retirement planning, affordable utilities and protection from financial abuse. We advocate for individuals in the marketplace by selecting products and services of high quality and value to carry the AARP name as well as help our members obtain discounts on a wide range of products, travel, and services. A trusted source for lifestyle tips, news and educational information, AARP produces AARP The Magazine, the world's largest circulation magazine; AARP Bulletin; www.aarp.org; AARP TV & Radio; AARP Books; and AARP en Español, a Spanish-language website addressing the interests and needs of Hispanics. AARP does not endorse candidates for public office or make contributions to political campaigns or candidates. The AARP Foundation is an affiliated charity that provides security, protection, and empowerment to older persons in need with support from thousands of volunteers, donors, and sponsors. AARP has staffed offices in all 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Learn more at www.aarp.org.

State Research brings the right knowledge at the right time to our state and national partners in support of their efforts to improve the lives of people age 50-plus. State Research consultants provide strategic insights and actionable research to attain measurable state and national outcomes. The views expressed herein are for information, debate, and discussion, and do not necessarily represent official policies of AARP.

AARP staff from the New York State Office, State and National Group and State Research contributed to the design, implementation and reporting of this study. Special thanks go to AARP staff including Will Stoner, Associate State Director of Community Outreach for AARP in New York; Coralette Hannon and Jeanne Antony, State and National Group; Rachelle Cummins, Darlene Matthews, Terri Guengerich, Eowna Young Harrison, and Brittne Nelson, State Research. Please contact Joanne Binette at 202-434-6303 for more information regarding this survey.
