Livable Community

A livable community is one that is safe and secure, has affordable and appropriate housing and transportation options, and offers supportive community features and services. Once in place, those resources enhance personal independence; allow residents to age in place; and foster residents' engagement in the community's civic, economic, and social life.

– AARP Policy Book, Chapter 9

AARP Network of Age-Friendly Communities

- AARP's Age-Friendly Network is an affiliate of the World Health Organization (WHO) Global Network of Age-Friendly Cities and Communities Program.
- The program was established to connect cities, communities and organizations worldwide with the common vision of making their community a great place where people can grow up and grow old.
- The program targets the environmental, social, and economic factors that influence the health and well-being of residents of all ages.
